Basic Cause of Industrial Unrest is Report of Federal Commission

COMPULSORY AND OPPRESSIVE METHODS

Used By Employers Both Legal and Illegal

TO DENY THE LABORERS

The Full Benefits of Their Toil—Workers Themselves Are to Blame Because They Are Blind to Their Collective Strength—Report Was Written By Chairman Frank P. Walsh

(ASSOCIATED PRESS TELEGRAM)

Kansas City, Mo., Aug. 28.—Low wages was found to be the basic cause of industrial unrest in the report which Frank P. Walsh, chairman of the federal commission on industrial relations, and the labor members of that body, will present to congress as a result of the commission's two year investigation into the subject.

The report, embodying the personal findings of Mr. Walsh and concurred in by Commissioners John B. Lennon, James O'Connell, and Austin B. Garretson, was made public here today.

"The workers of the nation, through compulsory and oppressive methods, legal and illegal, are denied the full product of their toil," it was declared in the report, "and the resulting industrial dissatisfaction was said to have reached 'proportions that already menace the social good will and the peace of the nation.'"

Responsibility for the condition under which they live was placed primarily upon the workers themselves, who "blind to their collective strength and often times deaf to the cries of the followers, have suffered exploitation and the invasion of their most sacred rights without resistance."

The report in part follows: "We find the basic cause of industrial dissatisfaction to be low wages, or, stated in another way, the fact that the workers of the nation, through compulsory and oppressive methods, legal and illegal, are denied the full product of their toil."

"We further find that unrest among the workers in industry has grown to proportions that already menace the social good will and the peace of the nation. Citizens numbering millions smart under a sense of injustice and oppression."

"The extent and depth of industrial unrest can hardly be exaggerated. State and national conventions of labor organizations, numbering many thousands of members have cheered the names of leaders imprisoned for participation in a campaign of violence, conducted as one phase of a conflict with organized employers."

"Employers have created and maintained small private armies and used these forces to intimidate and suppress their striking employees by deporting, imprisoning, assaulting, and killing their leaders. Elaborate spy systems are maintained to discover and forestall the movements of the enemy. The use of state troops in policing strikes has bred a bitter hostility to the militia system."

"Courts, legislatures and governors have been rightfully accused of serving employers to the defeat of justice and, while counter charges come from employers and their agents, with almost negligible exceptions, it is the wage earners who believe, assert, and prove that the very institutions of their country have been perverted by the power of the employer."

"To the support of the militant and aggressive propaganda of organized labor has come, within recent years a small but rapidly increasing host of ministers, college professors, writers, journalists and others of the professional classes, distinguished in many instances by exceptional talent which they devote to agitation, with no hope of material reward."

"We find the unrest here described to be but the latest manifestation of the age-long struggle of the race for freedom of opportunity for every individual to leave his life to its highest ends."

"The unrest of the wage earner has been augmented by recent changes and developments in industry. Chief of these are the rapid and universal introduction and extension of machinery, by which unskilled workmen may be substituted for the skilled, and an equally rapid development of means of rapid transportation and communication, by which private capital has been enabled to organize in great corporations."

"Work formerly done at home or in small neighborhood shops, has been transferred to great factories where the individual worker becomes an impersonal element under the control of impersonal corporations. Women in increased numbers have followed their work from the home to the factory and even children have been enlisted."

"Now, more than ever, the profits (Continued on Page 2, Col. 2.)"

GRAY HAIRD WOMEN SMOKE THEIR PIPES IN FINE QUARTERS.

(Associated Press Telegram)

St. Paul, Minn., Aug. 28.—A silent little group of gray-haired women, some of them grandmothers and some great grandmothers, resting easily in comfortable rocking chairs, with thin, blue ribbons of smoke rising from their meerschaum and calabash pipes, was one of the modernisms at the new \$150,000 women's building now in process of completion at the Ramsey county poor farm.

For the old ladies are to have an elaborate smoking room, fitted up in modern style, and, said Mrs. Albert Moore, wife of the farm superintendent today, "if the dear old souls want the walls covered with pictures of race horses, prize fighters and baseball players, they may have them."

GERMANS HAVE WRONG SYSTEM OF EDUCATION

HAVE BEEN TAUGHT FROM CHILDHOOD NOTHING BUT "COLLECTIVE HOMICIDE."

Under the Mistaken Idea that it Meant Patriotism, Says German Educator at N. E. A. Meeting.

(Associated Press Telegram)

Oakland, California, August 28.—That Germany was the victim of a wrong system of education, was the declaration made by John Mez, of Munich, Germany, at the closing session here last night of the National Education Association.

"Internationalism," was the subject of his address.

He said in part: "Those, in my country, who made war, meant it for the world's gain. They did not mean to destroy. They are the victims of a wrong system of education. They have been taught nothing beyond an irrational conception of militarism."

"Every one who lives in the United States and loves civilization and humanity should be grateful to the man who has kept America out of the war. 'Education in internationalism,' he continued, 'means educating the old men first to change the idea that collective homicide is the proper thing.'"

"The first duty of a man is to defend his country, but not to attack any other country."

"The most gratifying sight in the world is the spectacle of the college presidents of the country talking peace, for education is the one great agency which will wipe out the stupidity of militarism."

David Bancroft Johnson, president of the Winthrop Normal and Industrial college, Rock Hill, South Carolina, the new president of the N. E. A., reviewed the history of the organization and declared that the convention was the greatest in its record.

VICE PRESIDENT UNABLE TO FIND WHAT CAUSED WAR

(Associated Press Telegram)

Edwardsville, Ills., Aug. 28.—"I have read with great care the history of all the European countries for the last 100 years and I have read all the state documents issued in connection with the present war, but I confess that I don't know why this war is being fought," declared Vice President Marshall, in an address here last night.

Speaking of immigrants, Mr. Marshall said:

"I believe in inviting the foreigners of all nations to come to the United States, but when they do come here, they must assimilate. If a man cannot concentrate on the needs of the United States and take his mind off the country from which he came, that man should go back immediately. The recruiting offices are always open in London, Paris and Berlin."

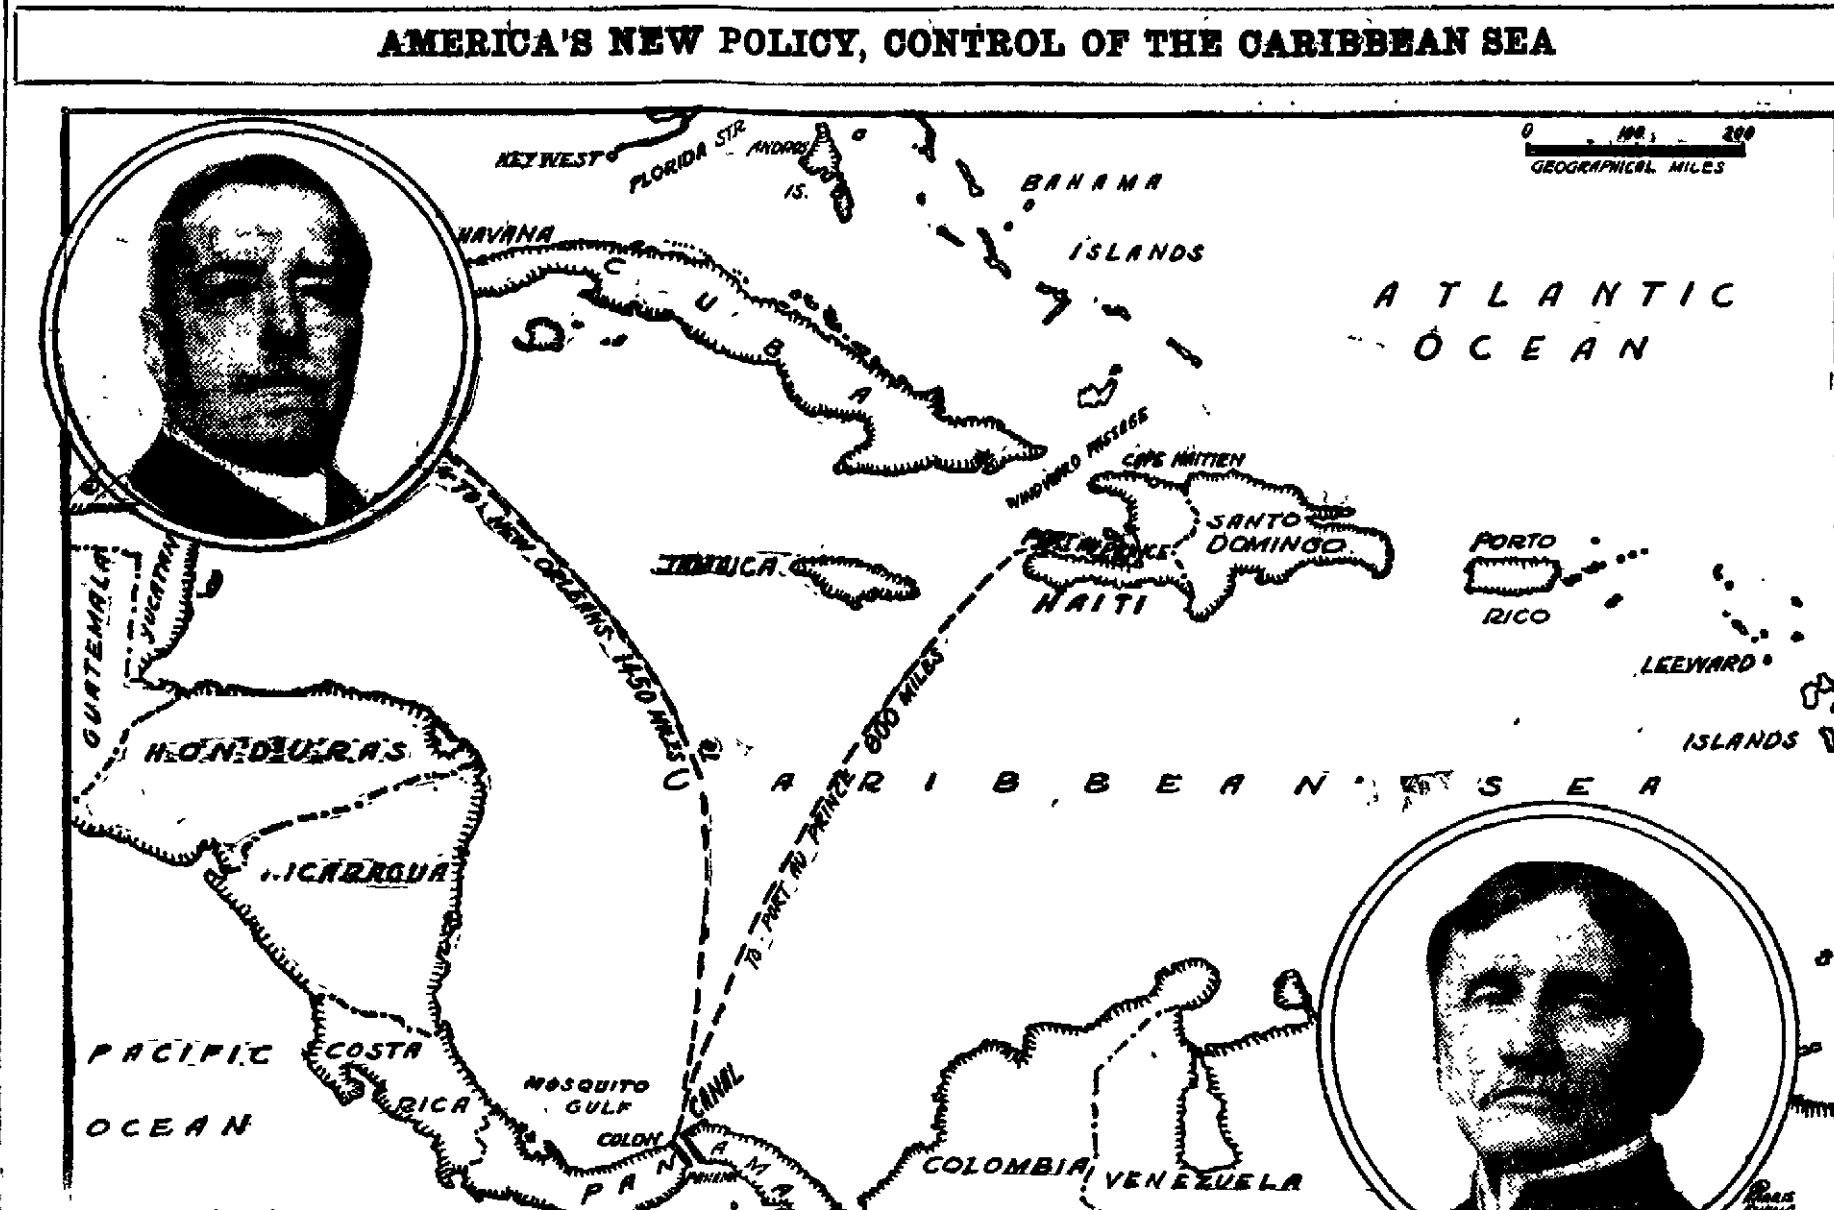

Attempted Air Raid On Paris; German Planes Driven Away By French, and One Destroyed

(Associated Press Telegram)

Paris, Aug. 28.—Four German military aeroplanes attempted to make a raid on Paris this morning. They were attacked by a French air flotilla and one of the German machines was shot to pieces in mid-air.

The German machines crossed the French lines flying at a great height and driving toward the city of Paris. When over a point to the north of the capital, they sighted a French air flotilla which was waiting for them and three of the German aeroplanes wheeled about and headed for the German lines.

Two of the German machines es-

Secretary of State Lansing

Secretary of State Robert Lansing has just announced a new and great American policy, nothing less than the control of the Caribbean Sea, which is necessary to the protection and control of the Panama Canal. Such is the interpretation put on its treaty he has just offered the new Haytian government providing for a protectorate of ten years. Of course, the policy is not stated in the broad

Map of the Caribbean Sea

terms that the purpose of it is to dominate the Caribbean; but far seeing Washington observers, who have believed ever since the American government decided to build the Panama Canal, that domination of the Caribbean was absolutely necessary to its protection, think the time has at last come when this new American policy has taken shape.

Control of the Caribbean requires

a port like Port au Prince at the east end. The Panama strip itself serves as a naval base on the west end of the sea, while New Orleans naturally becomes the large naval base necessary for the success of the policy. The treaty the secretary of state has offered to Hayti must, of course, be confirmed by the United States senate, and many members of that body may disagree with the new policy.

But there is little doubt in Washington that the administration has committed itself.

Admiral William B. Caperton is now in control of Hayti. Although a new president has been elected the American is almost dictator. He or some other representative of the navy department will likely remain there until the treaty for an American protectorate has been acted on.

TAX VALUES

OF UNION DEPOT AND MESSENGER COMPANIES HAVE BEEN INCREASED

Over One-half a Million Dollars Has Been Added to Duplicate from These Sources.

(Associated Press Telegram)

Columbus, Aug. 28.—Union depot companies and messenger and signal companies will have to pay taxes this year on valuations more than half a million dollars above those of last year.

The state tax commission, in a report issued today, gives figures which show that the total valuations of the two classes of companies have been raised \$653,720 since 1914.

Union depot companies in the state are worth \$3,665,720 this year, according to the tax commission's estimates, while in 1914 they were assessed for taxation on a total value of \$3,275,540, an increase for 1915 of \$390,180. For messenger and signal companies, the 1915 valuations fixed by the commission total \$576,140 compared to \$312,600 in 1914, an increase of \$263,540.

The largest increase among the Union depot companies was levied on the Dayton Union Railway company, which will have to pay taxes on a valuation \$241,460 more than last year. The American District Telegraph Company, of Cleveland, was given the largest increase among the messenger and signal companies, \$44,780 being added to its 1914 valuation by the tax commission for this year.

GERMANS REPORT MORE SUCCESSES GALICIAN FRONT

Berlin, Aug. 28.—(Via London.)—Tentative pressure against the Russians in eastern Galicia has resulted in the piercing of the Russian lines along the Zlota Lipa river, it was officially announced today by German army headquarters.

It was also announced that the town of Narew, about 20 miles southeast of Bialystok had been occupied by the Germans.

caped but one was outdistanced by its pursuers and was riddled by bullets. It fell flaming into the forest of Halatte, where the burned bodies of two aviators were found.

The fourth machine dropped five bombs at Montmorency, a town 15 miles from Paris. No one was hurt. The batteries at Montmorency opened fire on the aeroplane, but it got away in the haze.

Travelers arriving in Paris by train from the North can see at almost any hour from ten to fifteen French war planes in the air at the same time protecting the capital from German air raids.

When Willis Names Members Civil Service Commission Test Suit Is To Be Brought

(Associated Press Telegram)

Columbus, Aug. 28.—On Monday Governor Willis will appoint Dr. Z. B. Campbell of Ada, Republican, and S. D. Webb, of Athens county, and Columbus, Democrat, members of the new state civil service commission created by the Moore-Barnes law which goes into effect on that day.

The new law reduces the membership of the civil service board from three to two members, and makes it bi-partisan by providing for two members of opposite political faith. Charles German, of Fostoria, Republican, retires from the old board.

These three men were placed on the present board when Governor Willis, some weeks ago, secured the resignations of S. A. Hoskins, Columbus; Charles Bryson, of Athens; and Charles I. Brown of Findlay, as members of that body. The general impression has been around the state house that the chief executive would retain Campbell and Webb and that German would retire.

The members receive the same salaries under the new law as under the old one—\$4,000 a year. W. E. Kershner, of Columbus, formerly of Columbus Grove, Republican, it is understood, will continue as secretary. His salary is \$3,000 a year.

Immediately after the announcement of the appointments, a test suit is said, will be started by opponents of the law in the Franklin county common pleas court. This suit will be filed by former Attorney General Timothy S. Hogan and Attorney George B. Okey. Pro-forma entries will be asked for so that the

suit can be hurried to the supreme court for final determination of the question of whether or not the new law is valid. This course was agreed upon at a conference which these attorneys held with Attorney General Turner, who wants the controversy settled one way or the other without delay.

Democratic appointees in the various state departments are speculating what is to be their fate after the new law goes into effect Monday. Unless the courts prevent it, scores of them will be ousted from their places by the Republican heads of the departments in question it is generally supposed.

Unless there is a referendum, the new McDermott liquor license law will go into effect next Saturday. This law will, of course, terminate every official position under the present liquor law. Governor Willis is expected to put either Frank Hay of Stark county or M. M. Rose of Marietta, now on the board at the head of the new department.

That a false impression has gone abroad in regard to the referendum which is being sought in connection with the McDermott liquor license law and that no appointee of Governor Willis or the state liquor license commission is involved in the fight on the McDermott law, was the substance of a statement issued today by Judge Frank H. Kerr, of Steubenville. (Continued on Page 2, Col. 5.)

26 PRISONERS WERE TAKEN TO LIMA HOSPITAL

(Associated Press Telegram)

Columbus, Ohio, August 28.—Twenty-six prisoners in the penitentiary, declared insane by Probate Court, were taken to the new Lima hospital for insane today. The prisoners were handcuffed in pairs and were in charge of ten guards. A special car on the Ohio Electric was used to convey the prisoners.

State Department Awaits Berlin's Official Report On Sinking of the Arabic

(Associated Press Telegram)

Washington, Aug. 28.—Further developments in the situation with Germany now await the Berlin government's official report on the sinking of the Arabic. The state department expects to receive this from Ambassador Gerard as soon as the German Admiralty can secure it and meanwhile negotiations are at a standstill.

Negotiations covering the general subject of submarine warfare which it is understood Count von Bernstorff the German ambassador has been in-

structed by his government to open with a disavowal of Germany intentions to cause loss of life to Americans when the Lusitania was sunk, will be begun when the state department announces its readiness. These exchanges which are to be a continuation of the diplomatic correspondence will not be encouraged by the United States until the case of the Arabic has been satisfactorily disposed of.

The American government believes that Germany's sincerity in her announcement that she would not wage war against passenger ships had

NO PEACE

Will Be Made By Russia Without Consent of Her Allies

RUMORS ARE VIGOROUSLY DENIED

Czar's Armies On Point of Digging Themselves In

MOVE TOWARDS CAPITAL

Not Expected This Autumn As Von Hindenberg Has Made No Progress In Efforts to Secure Control of the Baltic Coast—German Warships Bombard Coast of Finland.

(Associated Press Telegram)

London, Aug. 28.—As the Russian armies continue to retreat, the foreign and war ministers at Petrograd deny vigorously that their government has any thought of making a separate peace with the Central Powers. Special dispatches from Petrograd state that the Russians are on the point of digging themselves in.

Military writers at the Russian capital are of the opinion that the German turning movement in Courland is not likely to threaten Petrograd seriously this autumn, as Field Marshal von Hindenberg apparently has made no progress in his efforts to secure control of the Baltic coast. The latest news from that region, however, indicates that Germany has not given up the plan for naval cooperation toward this end. Berlin reports that German warships bombarded at two points Dago Island, which commands the entrance to the Gulf of Finland. The Russian foreign minister, M. Sazonoff, declares emphatically that there is no disagreement among the allied commanders, and that while a German soldier remains on Russian soil, there can be no peace.

The greatest interest is displayed here in reports from Washington of the negotiations between the United States and Germany concerning the Arabic incident. Most of the newspapers consider that President Wilson has won a diplomatic success, the effect of which on the whole question of submarine warfare is certain to be momentous. Notwithstanding the orders of their leaders, four thousand more Welsh miners have quit work. The advisability of government control of coal mines is again being discussed seriously.

ITALIAN FRONT DIVIDED INTO WIDE SECTIONS

(Associated Press Telegram)

Rome, Aug. 28.—(Via Paris)—The Italian front has been divided by General Cadorna, the commander-in-chief, into two wide sections, each conducting a vast enveloping movement. Trieste is the objective in one case and Trent in the other.

The action is developing in each theatre in accordance with the predetermined plans. Reports from the front state that constant progress is being made, although movements are slow. General Cadorna has given instructions that as little damage as possible be inflicted on the towns in the paths of the Italian armies.

EIGHT HOUR DAY FOR EMPLOYES OF OHIO STATE FAIR

(Associated Press Telegram)

Columbus, Aug. 28.—The eight hour day will be applied as to employees of the Ohio State Fair, which opens here next Monday. The employees in the past have worked upon a basis of ten hours. The state board of agriculture in charge of the fair decided upon the concession to eight hours as an experiment, it being the opinion among members of the commission that the same amount or possibly more work would be accomplished on the basis of eight hours.

ATTORNEY GENERAL MAKES NEW RULING ON ELECTION CASE

(Associated Press Telegram)

Columbus, Aug. 28.—Attorney General Turner gave a ruling to Prosecuting Attorney John C. Dalton, of Lucas county today to the effect that the proposition to establish a county experiment farm cannot be submitted to voters until November elections in 1916. Toledo people wanted to submit it each year. The attorney general holds that such proposals should be submitted only in even numbered years.

WILL RAISE F-4.

Washington, August 28.—Rear Admiral Bouch reported from Honolulu today that two pontoons, specially constructed to raise the F-4, which sank several months ago, had been placed over the submarine and six chains passed under the wreck. It is expected the bulk will be brought to the surface without further delay.

PARTY RETURNS FROM VIEWING STREET PAVING

FIND THAT RESURFACING HAS BEEN SUCCESSFUL IN OTHER CITIES.

And that the Cost, as Estimated by Engineer Wells, is About the Average

City officials and citizens who made a trip of inspection this week to investigate the proposition of resurfacing the city's paved streets, found that such work is being done in other cities successfully and cheaply, and that the estimated cost of the work here, as announced by Engineer Wells, compares favorably with the cost in other cities. These were two important results of the trip which the officials regard as a profitable one.

Service Director Christian, Engineer Wells, Councilman Rexroth and F. S. Neighbor returned Friday evening at 5:30 o'clock, making the trip from Cleveland via Elyria, Norwalk, Mansfield and Mt. Vernon. Mayor Bigbee, Councilman Payne and J. E. Irwin returned from Cleveland earlier in the week, while the other members of the party made a boat trip to Detroit for further investigations.

The party left Newark early Tuesday morning, visiting Alliance, where they inspected a job of resurfacing, in which the "Tartar" preparation was being used. This material was being applied on top of an old asphalt block paving, the condition of which was similar to that on Hudson avenue. The work is being done at a cost of 72 1-2 cents per square yard. The finished work makes a neat looking pavement, free from dust and less noisy than a paved street.

The party reached Cleveland after a tiresome ride over some very muddy roads, arriving at 1:00 o'clock Wednesday morning.

Wednesday, representatives of the Barret Manufacturing company escorted the party over several Cleveland streets, where Tartar work is being done or has been done for some time past. Bellflower avenue, one of the streets inspected, is a residence street on which the resurfacing was done ten years ago, and the pavement is still in good condition.

In the afternoon, representatives of Warren Brothers company and the Cleveland Trinidad company showed the officials some streets paved with asphaltic concrete and bitulithic pavements. The two methods are similar, though the latter is a patented process, and the royalty for its use makes it a little more expensive.

Both methods use asphalt with a mixture of crushed stone, which is applied on the brick pavement. The pavements where these materials were used, inspected by the Newark men, were in fine condition. The asphaltic concrete paving costs about \$1.10 per square yard, while the bitulithic paving costs about \$1.35 per square yard.

Part of the Newark delegation went to Detroit by boat, where they visited the Detroit asphalt plant, a municipal institution which is the largest in the United States. Engineer Proctor, Detroit's City Chemist and paving expert, conducted the Newark delegation over the city, and from him they secured much valuable and reliable advice, as to the best sorts of pavement.

Representatives of the Barber Asphalt Paving company also conducted the party over Detroit for the inspection of exceptionally well maintained streets of asphalt, asphaltic concrete, etc. One asphalt street was examined which was put down 28 years ago, and for 18 years required no repairs. Since that time it has been repaired practically every year, though in most cases the repairs were made necessary because of cuts in the street.

The party visited Highland Park, a Detroit suburb, where the Ford automobile factory is located. City Engineer Beckley of Highland Park, conducted the Newark men on a tour of inspection of the many streets paved by methods in which Newark is interested.

The party took advantage of the opportunity afforded by the visit in Detroit to see the Tigers and Boston Braves in the struggle for the pennant. They saw the 12-inning game Thursday. The Newark men also made a trip through the great Ford factory.

LOW WAGES

(Continued from Page 1.)
of great industries under centralized control pour into the coffers of stockholders and directors who never have so much as visited the plants and who perform no service in return. And, while vast inherited fortunes, representing zero in social service to the credit of their possessors, automatically trouble and multiply in volume, two-thirds of those who toil from eight to twelve hours a day receive less than enough to support themselves and their families in decency and comfort.

"We find that many entire communities exist under the arbitrary economic control of corporation officials charged with the management of an industry or group of industries, and we find that in such communities political liberty does not exist, and its forms are hollow mockeries.

"In larger communities, where espionage becomes impossible, the wage earner who is unsupported by a collective organization may enjoy freedom of expression outside the workshop, but there his freedom ends. And it is a freedom more apparent than real. For the house he lives in, the food he eats, the clothing he wears, the environment of his

wife and children, and his own health and safety are in the hands of the employer, through the arbitrary power he exercises in fixing his wages and working conditions.

"The responsibility for the conditions which have been described above we declare rests primarily upon workers, who, blind to their collective strength and oftentimes deaf to the cries of their followers have suffered exploitation and invasion of their most sacred right without resistance. A large measure of responsibility must, however, attach to the great mass of citizens, but, until the workers themselves realize their responsibility and utilize to the full their collective power, no action whether governmental or altruistic, can work any genuine and lasting improvement.

"We call upon our citizenship, regardless of politics or economic conditions to use every means of agitation, all avenues of education and every department and function of government to eliminate the injustices exposed by this commission, to the end that each laborer may secure the whole product of his labor."

EMPLOYEES HAPPY

Bridgeport Strikers Will Return Under Better Hours and Conditions.

(ASSOCIATED PRESS TELEGRAM)
Bridgeport, Conn., Aug. 28.—With industrial conditions improving rapidly and several thousand striking employees of plants ready to resume their labors Monday under the eight hour day and better shop conditions factory toilers were in a jubilant mood today.

It was predicted that next week would see but few idle persons in Bridgeport. The labor leaders are expected to transfer their activities to other Connecticut cities, where preliminary efforts are being directed toward building up local unions of various crafts.

In the absence of Waldo C. Bryant, head of the Bryant Electric Co., the strike of 1500 employees there was not definitely ended today, but the men expected to return Tuesday. It is understood that the only obstacle is a declaration to recognize the union.

Eight hundred girls of the Crown and George C. Batcheller Corset Co. will return Monday, having won every point raised, including abolition of the fine system.

STATE

(Continued from Page 1.)
ended must be established before the Lusitania discussion can continue.

Reiterations by American officials that rights of neutrals will be insisted upon in all quarters is taken by German officials to mean that when it is established that Germany has modified her submarine policy, England will be asked to relax the blockade against foodstuffs for Germany. German officials believe the change of their policy will permit an acceptance by the United States of the concessions which Germany will make when negotiations are reopened.

The state department now regards its case on the Arabic as made up as far as British and American sources of information are concerned. There now remains only the German presentation to afford the department a basis for final decision.

There was no further conference today between Secretary Lansing and Count Bernstorff, and it is understood the latter probably will not again call at the state department until his government is ready to submit the statement it has promised in regard to the Arabic incident.

VICTORY

(Continued from Page 1.)
is not probable Germany will abandon her "submarine savagery" altogether.

"There would be fierce complaints over the relinquishing of so potent a weapon at American dictation," says the Standard. "For their own satisfaction, the Germans will adopt a pose of making important but not vital concessions out of pure friendship for the United States and it is not likely that President Wilson on his part will stand for the strict letter of his demand. The primary reason for the concession is doubtless the conviction that Mr. Wilson's patience is nearly exhausted and that his next step would mean business."

The Courts

Case Continued.

The case of the state of Ohio against M. Cramer, charged with defrauding James Fitzsimmons out of a board bill was continued until Sept. 4 at 9 a. m. In the meantime Cramer will endeavor to settle the bill which amounts to about \$30.

Justice Scott's Court.

Leonard Layland of Homer, Ohio, charged by his mother with assault and battery, was brought before Justice Fletcher S. Scott today and after hearing the evidence that official fined Layland \$25 and costs, and sentenced him to 30 days in the county jail. Upon request of the plaintiff's mother, the fine and sentence were suspended pending his good behavior and he was warned not to repeat anything of a like nature or it would be put in force immediately.

OUTSIDE LODGES INTEND TO COME TO DEDICATION

At the meeting of the general committee on the dedication of the Pythian castle here on Wednesday, Sept. 22, held last evening, reports were made from committees which had visited other lodges and extended invitations to them to attend, as well as from the committees which are working night and day to make an assured success of the great day. The reports from lodges out of the city as to interest being taken and the enthusiasm manifested was highly encouraging to the committee as it shows that all of this section of the state is deeply interested in the coming dedication and that everything is favorable it will mean the biggest gathering of Pythians ever held in central Ohio. The presence of the uniformed rank will add much to the attractiveness of the occasion, while the brigand team from Bakoo temple, D. O. K. K., will add its picturesque costume to the beauty of the scene.

The members of the committee went over the new castle last evening and were greatly pleased with the beauty and convenience of the building and of the rooms which have been especially prepared for their use as lodge and club rooms. There is not an inch of superfluous space in the entire building and everything has been arranged in the most commodious and up-to-date manner. All of the modern improvements made possible by skill and experience have been installed and make this one of the most modern of secret society buildings in Ohio.

Practically the last of the furniture was moved from the old lodge room in the Ankele building last evening by the boys who had the assistance of the Stewart Bros. and Alward and C. S. Osborn's trucks in moving it. Some of those were present last evening and helped in the removal work who had aided Roland lodge in moving into the Ankele building from the old stone building 20 years ago.

The boys are highly enthused over the new home and predict that it will have a big influence in adding to the membership of the order.

BERLIN DENIES BRITISH REPORT SUBMARINE SUNK

(ASSOCIATED PRESS TELEGRAM)
Berlin, Aug. 28.—(Via London.)—The admiralty today made denial of the official British statement that a German submarine had been sunk this week by a British aviator off the Belgian coast near Ostend. The admiralty also made a report on the attack on August 16 by a German submarine on the English coast. The announcement is as follows:

"One of our submarines, on Aug. 16 destroyed by gun fire the Benzol factory with the attached Benzol warehouses and coke furnaces near Harrington, Eng. The statement of the British press that the submarine attacked the open towns of Harrington, Parton and Whitehaven is incorrect."

"The same submarine on August 15 was fired at from a great distance in the Irish sea by a large passenger steamer, probably a Royal Mail steam packet, but was not hit."

"The British admiralty announced on August 27 that a German submarine had been destroyed and sunk off Ostend by a British seaplane. This is incorrect. The submarine was attacked but not hit, and returned to port undamaged."

The British statement referred to by the German admiralty was made on August 26. It stated that squadron commander, Arthur Bigsworth, had destroyed single handed a German submarine off Ostend. The announcement contained these words: "The submarine was observed to be completely wrecked and sank off Ostend."

Since the Austro-Germans, in their drive through Galicia in May and June, threw the Russians back upon the line of the Dniester and the Zlota Lipa and Gnla-Lipa rivers late in June, there has been comparatively inactivity along this front, so far as the official reports have indicated.

Today's statement from German army headquarters that the Russian lines on the Zlota Lipa had been broken through apparently means that the Teutonic forces are renewing their thrusts in Galician territory, and have scored a success in the course of an attempt to clear the remainder of that territory of Russian troops which, if carried to a conclusion, would result in Russians being forced back into their provinces of Volhynia and Padolia.

The occupation of the town of Narow, also reported today, records further advance of the German armies pushing eastward from the Bialystok Bielsk line.

OPERATORS SEND MESSAGES FOR CHAMPIONSHIPS

San Francisco, Aug. 28.—With several of the fastest telegraph operators in the country entered, the championship event of the telegraphers' tournament association was to be decided here today. The program called for events in the hand and machine sending classes.

In the competition last night, Richard C. Bartley of Philadelphia was the winner of the men's contest, sending 40 messages in 28 minutes and 15 seconds. George Smith of Philadelphia won first place in "Class B," which consisted of receiving 40 ordinary railroad messages.
A. E. Gerard of Marshall, Calif.,

won the contest in the sending of wireless. He sent 20 ordinary wireless messages (totaling 393 words, 12 minutes and 4 seconds).

Isaac P. Hoskinson.
Isaac P. Hoskinson died this morning at 1:30 o'clock at his home in Franklin township, nine miles southeast of this city, dissolution being caused by a complication of ailments after having been confined to his home for the past two months. Mr. Hoskinson lived in Franklin township nearly all his life and was one of the best known farmers of that community. He was a township trustee and was highly respected by all who knew him. He was a member of the Brownsville M. E. church and always took an active interest in community affairs.

On September 11th, 1881, Mr. Hoskinson was united in marriage to Diantha Brown of Brushy Park, and to this union were born five children all of whom survive with the widow to mourn the loss of a kind and loving father and husband. The children are Mrs. Essie Brown of Somerset, O., Mrs. Alice Wolf of two miles east of this city, Frank Hoskinson of two miles north of Graciot, Mrs. Belle Scott and Mrs. Laura Sherman of this city. Two half sisters also survive, Mrs. Clemmie Williamson and Mrs. Elma Geiger of Hebron. The funeral will take place Monday morning at 10:30 o'clock from the Popla Park church near Graciot. Interment in the Popla Park cemetery.

Ralph W. Hatfield.
Ralph W. Hatfield, four day old son of Mr. and Mrs. Azora H. Hatfield of 78 Oakwood avenue, died early this morning of infantile trouble. The funeral will take place Sunday afternoon from the home, Rev. W. D. Ward officiating. Interment in Cedar Hill cemetery.

Daniel D. Jones.
Mr. O. C. Jones received word from his cousin, Chas. E. Jones, Kinzisher, Okla., that his father, Daniel D. Jones died in Idaho, July 30 and was buried in Lenox, Iowa, their old home. The deceased was an uncle of O. C. Jones, Miss Irene C. Jones, and Mrs. William Elber and a brother-in-law to Mrs. Edward B. Jones.

Daniel D. Jones was an old resident of Newark and was married to Louise Evans in the residence now occupied by Mr. W. S. Wright in Hudson avenue. Fifty years ago after their wedding they went to their home in the west. His wife died five years ago. He is survived by one son and two daughters and a number of grandchildren. Mrs. Edward B. Jones is the last member in the Evans family as all are now dead, twenty-three in number except Mrs. Edward B. Jones who now makes her home with her son-in-law, Samuel Swan, east of the city.

Mr. Jones was a farmer all his life and was highly respected by all who knew him.

"Cooky" says he remembers the day Uncle Dan was married and that "Uncle Dan was very fond of horses and sold his black team for \$600.00 cash. That was his capital to go west and start life."

ville, in charge of the referendum headquarters here.

Judge Kerr said that his call upon Governor Willis just prior to the inauguration of the referendum movement was of a purely social nature and that at that time he did not even see the governor. His only conference with members of the state license commissioners, he said, was in relation to a matter in which he was interested in the capacity of attorney for a Jefferson county client. Judge Kerr asserted that he does not know who is behind the referendum movement further than that he was solicited by friends in his part of the state to take charge of the headquarters and that he consented to do so as a result of their urgent appeal.

SOUTH END CUBS WILL PLAY NEWARK CUBS.

The South End Cubs will cross bats with the fast Newark Cubs on the Jefferson street diamond, Sunday morning at 9 o'clock. The following South End Cubs are requested to report: W. Hummel, Anderson, Harrison, Devine, Taylor, Nadolson, Taylor, F. Hummel, Yost, Toothman, Donaldson, Redman.

WYOMING VALLEY

The Wyoming Valley Grange will hold a picnic on Saturday, September 4, 1915, in Barney Walker's grove (old Conrad home) one mile north of Vanata. Every body come, and enjoy the day with us.
Professor Homer C. Price will be there and give an address.

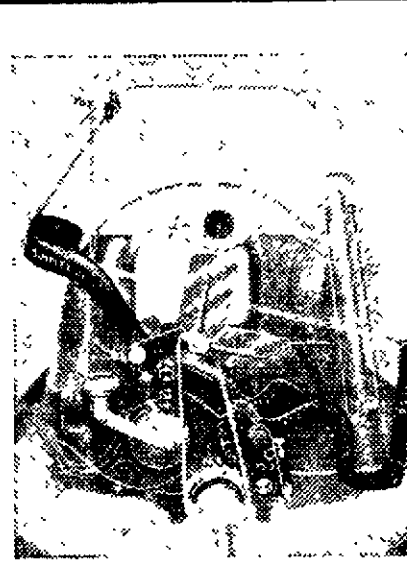

BUILT FOR YOU

OUR new building at the corner of North Third and West Main streets was built to give a definite and positive evidence of the effectiveness of thrift and saving so striking as to appeal to the imagination of every man, woman and child in Newark. And further, to provide facilities of an ample character to foster the spirit of thrift which we hope it will inspire.

Every time you look at this building we want you to think of the thousands of small and large savings deposits which placed this institution where it needed such a home, and of the hundreds of homes in Newark made possible by loans placed here, and we want YOU to become a shaver in the benefits of "The Old Home."

Detroit Electric

\$1975 to \$2275

The car for all the family all the year

The enclosed car is steadily and surely becoming the preferred type of motor car. Its obvious advantages are winning more buyers each year.

And the modern Detroit Electric is easily the first choice in the enclosed car field. Each member of the family can drive it safely and expertly because of its simplicity and the positiveness of the control system. On hot days—with windows down—you enjoy open car coolness. On cold, stormy days—with windows raised—you have closed car comfort. And the Detroit Electric is perfectly silent in operation—it is always clean and there are no fumes or odor of gasoline about it. It has plenty of power and all the speed you need. And because its mechanism is so simple and of such high quality it is always dependable and available. There are some points about the Detroit Electric you will only fully appreciate after a demonstration—when will you have yours?

MAKE THE ROADS BETTER

BY JESSE TAYLOR

Editor of "Better Roads and Streets"

(Continued from Yesterday.)

For the purpose of providing by taxation a fund for the payment of the county's portion of the cost and expenses of constructing, improving, maintaining, dragging, and repairing roads the county commission is authorized to levy a tax not exceeding two mills upon each dollar of the taxable property of the said county. Said levy shall be in addition to all other levies authorized by law for road purposes, but subject to the limitation on the combined maximum rate for all taxes now in force.

The county commissioners may let the work as a whole or in convenient sections as may be determined. They shall award the contract to the lowest and best bidder.

Before entering into a contract the county commissioners shall require a contractor to execute a bond payable to the state of Ohio. Such bond shall be conditioned for the payment of all material and labor furnished for or used in the construction of the road for which such contract is made.

The board of county commissioners may extend a proposed road improvement into or through a municipality when the consent of the council of said municipality has been first obtained, and such consent shall be evidenced by the proper legislation of the council of said municipality entered upon its record.

The council of the municipality must approve such plans, specifications, profiles, cross-sections and estimates, and such council may enter into agreement with the board of county commissioners as to the part of the estimated cost and expense of said improvement that is to be paid by the municipality.

The municipality shall pay to the county treasury its estimated proportion of the cost of said improvement as fixed in said agreement between the council and county commissioners, or, in anticipation of collections or assessments the municipality is authorized to sell its bonds.

The county surveyor shall be county highway superintendent and shall give his entire time and attention to the duties of his office.

The county highway superintendent shall have general charge, subject to the rules and regulations of the state highway department, of the construction, improvement, maintenance and repair of all bridges and highways within his county, whether known as township, county or state highways.

The county highway superintendent shall, on or before April 1 or each year make an annual estimate for the township trustees of each township, for the improvement, maintenance and repair of roads, bridges and culverts, or for the construction of new roads.

The county highway superintendent shall, in writing, request the attendance of each township superintendent at one dragging demonstration, at least each year, and shall enforce the provisions of the dragging law.

The county highway superintendent shall keep the highways of the county at all times in good and suitable condition for public travel.

All crowning and shaping of earth roads, except such as come with road drags, shall be done prior to the 15th day of May of each year, unless the county highway superintendent, by an order in writing, filed with the township trustees, shall extend the time.

The county highway superintendent shall enforce the law and cause township highway superintendents,

in their respective districts to cut all brush, briars, burrs, vines, Russian or Canadian or common thistle or other noxious weeds growing upon the public highways between the first and twentieth days of June and the first and twentieth days of August of each year.

The county highway superintendent shall erect and maintain at the cross roads, on inter-county and main market roads, suitable sign posts of a design to be prescribed and provided by the state highway commissioner, showing the names of the roads and the direction and distance to nearby villages and cities.

The highway superintendent shall build a substantial fence at least four and one-half feet high and painted white on the open side of all winding grades of at least four per cent.

JAMES TO HELP BOSTON IN FIGHT FOR PENNANT

(Associated Press Telegram)

Oroville, Calif., Aug. 28.—"Bill" James, the California pitcher who played an important part last year in the fight of the Boston National league club for the championship left his home here today to rejoin the Braves.

James has been troubled with a sore arm and several weeks ago was suspended at his own request to give him an opportunity to rest. He said he believed he was now in condition to help the Braves in their fight for the pennant.

WILLIAMS SETS NEW PACE RECORD FOR CANADIANS

Montreal, Aug. 28.—William won the match pacing race from Directum 1 in two straight heats, the first of which was decided early in the week and the second yesterday. William set a new Canadian record yesterday by going the distance in 2:00 1-4. He had the pole position and was not extended at any stage of the contest. The race was for a purse of \$5000, two in three.

The Great Miss Russell, with McMahon up, and paced by Grand Opera, was driven to beat a 2:30 trotting mark, and did it, 2:24 1-4 being her time.

The track was good and good racing marked the last day of the meeting.

NEW YORK HORSE LOWERS RECORD AT LONDON TRACK

London, August 28.—Lottie Simmons, a handsome big mare owned by F. L. Perrin of New York, who expects to trot her on the Grand Circuit at Columbus in less than a month and send her on to Lexington, yesterday cut the trotting record of the Madison county fair track to 2:12 1-4 and earned an extra \$100 for so doing. Cliff Todd, Ohioan, was Lottie's teamster.

Aura Bell, driven by Nels Vanatta finished the 2:22 trot in fifth place. Spectators insisted that the Vanatta horse should have been awarded third position in the third heat in which she was placed fourth.

SNYDER AND COBB LEAD THE MAJORS

BUT NIGHT IN THE NATIONAL LEAGUE HAT 300 OR BETTER.

Cobb Suffered Slump But Still Leads Americans With 388—Has Stolen 73 Bases.

(Associated Press Telegram)
Chicago, Aug. 28.—The National league has only eight batters in the "300" class, according to averages published here today. Snyder, of St. Louis, who took the lead away from Doyle of the Giants last week, remains at the head of the list with an average of .325. Doyle is second with .323. JOHNS HERO OF LATE RALLY OF CHICAGO CLUB

Chicago, Aug. 28.—Pete Johns, the recruit third baseman obtained from the Columbus club of the American Association, was the hero of yesterday's game with Philadelphia, Chicago winning, 3 to 2, in the ninth inning.

Johns started the inning with a single and made a beautiful slide into second base when Wyckoff, Schalk's grounder and tried to reach the recruit at the keystone sack. Cioctte sacrificed Johns to third and he scored the winning run on Murphy's single to right.

FOOTBALL TEAM GETS WORKOUT AT WEHRLE PARK

On the same field where the closing of the baseball season is being marked by the city championship series, the Newark (Independent) football team will practice Sunday morning in preparation of the opening of the gridiron season which succeeds baseball. This bunch of pigskin chasers is rapidly developing a team of speed and vigor which will give a good account of itself this fall. Football fans have not forgotten the sport furnished last season. Sunday morning's practice session starts at 9 o'clock and there is still a chance for aspirants to secure places on the team. A practice game between two teams selected from the squad will be played soon.

GAHAGAN HURT IN A BAD SPILL AT WAPAKONETA

Wapakoneta, Aug. 28.—The races at the Auglaize county fair were completed yesterday. A bad accident marred the 2:17 pace when Janeta, Colonel Elsworth, Virginia Brooks and Uncle Jim piled up on the track a short distance from the home stretch in the first round of the third heat. The driver of Uncle Jim, Joe Gahagan, was seriously hurt and several other drivers slightly. Last fall at Lima Gahagan had a narrow escape from death. Only three horses finished the heat.

OWNER CLAIMS MARE WAS DOPED; PROMISES EXPOSE

Kenton, Aug. 28.—May Fern, the Kenton pacer that won the first heat of Thursday's 2:14 pace, or the greatest race ever seen in Kenton, nearly died yesterday, and Mrs. Michael Haley, owner, says sensational developments can be expected soon. Drugging is alleged. May Fern was entered in the Ohio state fair races for next week but will not start. Mrs. Haley was offered \$1,500 for her pacer after she made her record of 2:13 1-4 at Toledo three weeks ago.

GREAT CROWD IS PRESENT AT ATHENS TRACK

Athens, Aug. 28.—The four races on yesterday's program at the Athens county fair went in straight heats. The feature of the card was the form shown by Argot Bell. This mare took two straight heats in the 2:30 pace Thursday and then was distanced. Yesterday she showed splendid form while taking the 2:22 pace. Fully 10,000 witnessed the racing. Rain fell during the greater part of the afternoon, slowing the final heats.

STORM ADAIR FAILS IN LAST HEATS AT KENTON

Kenton, Aug. 28.—Race fans here were treated to another six-heat event when Storm Adair, a Richmond, O., stallion refused to keep his feet in the 2:24 trot and came in fourth in the last three heats, after winning two straight. Mary Ward, a Plain City mare, won the last three heats after showing poor during the first two. Joe Wellwood drove Tom H to a straight-heat victory in the 2:16 pace.

ALL READY FOR CLASH SUNDAY AT WEHRLE PARK

Pitchers and fielders alike are ready for the clash Sunday between the C. A. C. and the Heisey's at Wehrle Park which will start at 3 o'clock, weather permitting. And if the weather man is kind there is promise of a great battle. This series has already gone four games with honors even and as the finish approaches the tension among the players on both clubs increases. The city championship is the honor to which the two clubs aspire and while no great compensation accompanies the honor the players are just as anxious to win the championship. The series may go the full seven games before a decision is reached.

A BUSINESS MAN'S REMARKS ABOUT BUSINESS MEN'S AUTOMOBILES

By W. C. Anderson, President Anderson Electric Car Company.

ELECTRIC CABRIOLET—A MAN'S CAR.

The American business man is no longer a mere automobile buyer, who may be influenced this way or that by the sales talk of an automobile salesman. This same business man, who a few years ago was helpless so far as being able to wisely determine the merits of various automobile types, is today keen not only on car construction, but also knows the type of car to purchase for the work he has to do.

So it is only a logical sequence that as business men study the automobile situation, as it is related to their daily transportation requirements, that they should more and more favor the electric car of today.

The effeminately designed car of several years ago, with its dainty trimmings, short radius and slow speed, naturally could not have filled the demands of the hustling (impatient-of-delays) American business man. But the American business man's characteristics which prevented his buying an electric car of the old type are now prompting him to buy the electric car of today, for he is confident when he starts in an electric car, he will reach his destination promptly and without difficulty.

The appearance of the 1915 Detroit Electric Cabriolet model is worthy of approval by the reddest of our red bloods. Every line of its low-hung body bespeaks speed, efficiency and power. In performance the new Detroit Cabriolet has proved its practicability beyond a doubt. Many men who in the past have more or less patiently put up with the delays occasioned by one of the thousand sources of trouble in the gasoline car, especially in cold weather, have learned that they have been carrying an unnecessary burden.

Sales reports of the Anderson Electric Car Company show that the sale of their cars to men for their own use have increased more than 200 per cent. since the snappy-appearing, fast and sturdy men's models have been offered for sale. Much of the electric car advertising in the past has been devoted to promoting the electric exclusively for women. True it was that the characteristics of the electric car of the early days was somewhat effeminate, but this situation has changed.

Business men find the electric roadster or cabriolet of today ideal in appearance, simplicity of operation, low upkeep cost, availability for immediate use at all times of day or night, continuous satisfactory performance in winter as well as summer, and flexibility in crowded traffic. Aside from these characteristics, which may be secured in the electrically propelled vehicle only, a demonstration will prove to the most skeptical that ample speed and mileage is offered.

How Tuberculosis Spreads.

Encouraging figures about the fight against the "White Plague" were given at the recent Anti-Tuberculosis association meeting at Seaside. The death rate from this disease has been reduced in the past 33 years from 326 per 100,000, to 146. But as 143,000 people still die yearly from tuberculosis in this country, it is still an ever present dread.

The one great difficulty is the persistence of the habit of spitting in the streets. It is not a pleasant subject. The newspapers would much rather write about something cleaner and more thrilling than this toilsome crusade against a popular custom.

Formerly every one ridiculed the idea of a campaign against street expectoration. The citizens clung to the habit, as if it was one of the choicest of liberties for which the fathers fought, bled and died. If a city council was asked to pass a No-spitting ordinance, some local orator was sure to denounce such a tyrannical interference with ordinary habits. Most of the leading citizens did it, and people who denounced the practice were called fussy old aunts.

But when science made it clear that the frightful economic waste, the sorrow and tragedy of this scourge, are largely conveyed from system to system by the habit of spitting in the streets, city governments, railroads, and other forces began to move.

A man may say that he is in perfect health, and that he can not convey disease in this way. Yet, if he persists in the practice, some poor wreck of humanity, with one foot in the grave with consumption, will see him and do likewise, thus casting into the street the baleful poison from his infection.

While it is difficult to break the older men of this habit, every school child should be taught that no one has a right to take a chance of spreading disease in this way.

Schools and Recreation.

Men will not tolerate in a public school building a performance they might witness without protest in other places, says Clarence A. Perry, in a bulletin just issued by the U. S. Bureau of Education. For this reason Dr. Perry thinks the movement to use the school plant for social and recreational purposes is destined to purify as well as popularize amusements.

Speedier Justice in Kansas.

(Harpers' Weekly.)

Justice in Kansas is becoming speedier, surer and cheaper. The credit for this improvement, says a progressive judge, belongs to the direct primary and the non-partisan ballot.

"They have brought the courts and the judges back to the people again," Judge J. C. Ruppenthal of the Twenty-third Kansas circuit says. "Some boys and girls as to make every hour spent in the classroom of value to them in their future life.—Philadelphia Enquirer

The governors of the states in conference at Boston have reflected accurately the feeling of the people in sending to the president a message of "confidence and support in this hour of deep international concern," and of readiness to "follow his leadership in all matters," as he may determine. That is a rare tribute to President Wilson, and it is fair notice to other nations that there is here no division on political lines when it comes to national defense, and no other division that an enemy can build any hope upon. The states are a nation, and the people in them are of one mind.—Columbus Dispatch.

Minimum Estimate.

A paragraph in the Ohio State Journal tells us that "Cleveland will be behind \$1,000,000 next year." It is apparent that The State Journal is growing careless, for manifestly what it meant to say was that the Forest City would be behind at least \$1,000,000 next year.—Marion Star.

TAKE A LOOK

If You Have Time

Who, we desire to ask, is responsible for the notion that the husband should empty the pan under the refrigerator?

Another young man who seldom is worth rescuing is the one whose folks pay an actress a large sum of money to induce her to permit him to get a divorce from her.

In a woman, freckles and good sense go hand in hand.

Probably the finest example of self-restraint is that given by a woman who does not succumb to the temptation to put a little vanilla in it.

"The groom," says a Kansas paper in its account of the wedding, "was dressed in a suit of blue serge." But the Kansas paper failed to tell what the condemned man ate for breakfast, and neglected to comment upon the manner in which he comported himself on the way to the scaffold.

We have noticed that an aviator seldom has more than one accident.

When two men fight over a woman neither wins.

Eph Wiley doesn't say much, but he nearly always has sawdust to sell.

Coming down town this morning you met little girl on her way to school. By the time you get home this evening she will be a grown-up young woman dressing for a party.

Pointed Observations

Wisdom.
Old Doctor—"Now, when your patient asks you for a tonic, what are you going to do about it?" Young Doctor—"Find what she really needs and prescribe it." Old Doctor—"Wrong! No success in that method. Whenever your patient has diagnosed her own case, and tells you she needs a tonic, you prescribe a tonic every time." Young Doctor—"Why?" Old Doctor—"Don't you guess why? Because she will then have to see that you know almost if not quite as much about medicine as she does.—Judge.

Spirit of the Press

A New Note.

The opening of the fall term in September, when approximately 200,000 children will troop back to their classrooms, will mark what virtually amounts to the opening of a new epoch in the history of Philadelphia's public school system. A new note runs through the preparations for the year in all departments of both elementary and higher schools.—Although that note is practicality, in no sense slighting the subjects of a cultural value, a unified effort will be made to adjust the instruction for boys and girls as to make every hour spent in the classroom of value to them in their future life.—Philadelphia Enquirer

A United People.

The governors of the states in conference at Boston have reflected accurately the feeling of the people in sending to the president a message of "confidence and support in this hour of deep international concern," and of readiness to "follow his leadership in all matters," as he may determine. That is a rare tribute to President Wilson, and it is fair notice to other nations that there is here no division on political lines when it comes to national defense, and no other division that an enemy can build any hope upon. Another Impossibility.

As long as nobody seems to object to our butting in on this most impossible paragraph competition we are going to enter this one. The handsome paragrapher went to his well-earned rest that day without having written a single paragraph that made anybody mad.—Lima Times-Democrat.

Always an Exception.

"Man," quoth the Ohio State Journal, "is a bill-paying animal." What, I mean, "paying?"—Columbia State.

Roosevelt's Speech.

Colonel Roosevelt has done the country a service by recalling in his most vivid and striking manner the enormous price which the extreme pacifists of 1861 were ready to pay for peace. It is almost unthinkable to intelligent Americans of this day that many upright and educated men of American birth were willing to see their country torn apart and permanently divided rather than fight for its life as a united nation.—Cleveland Leader.

SOLEMN THOUGHTS.

Soon, now, the long vacation will dwindle to its close, the time of recreation and fun and goods like those, and in the knowledge palace the wheels once more will turn.

Henry, James and Alice will buckle down to learn before the kindly teachers they'll learn to parse and spell, while thinking of the bleachers they patronized so well. They'll try their hands at rhyming.

attack the rule of three, while wishing they were climbing up some one's apple tree. Why are the children sulking, as sulky they do, it seems, since school is largely bulking in all their future schemes? Why should they hate the cheery far-sounding school-house gone? They surely must be weary of games they've played so long. Why should they dread returning from scenes of idle play, to yonder seat of learning, where wisdom holds its sway? The ancient man and woman would pause for a reply: well, girls and boys are human, and that's the reason why.

When the World Was New.

The world is biggest when we are young enough to conceive of the pasture as an empire and the city block as a republic. Time is longest when we are young enough to see a day as an epoch, a week as an era, a summer vacation by seaside or lake shore as eternity itself. As we grow older the world grows smaller, and so does time. Space and time are nothing for boy or man save as he holds measures for them in hand or in memory. The boy understands ten feet because that is three long strides, and ten years because he has just lived them. Now we have lived another ten and yet another, but the first ten were the longest and are the truest measure, for the more years we are granted the more scornful of the gift we grow, though the more insistent, too, in our demand for more.—Collier's Weekly.

Society

The first of a series of six articles on physical culture appears in the Advocate today. These articles or lessons are written by an authority, Anna Louise Shafer. Every girl, every woman will find Miss Shafer's articles interesting.

The ladies of the Social Embroidery club were entertained on the usual club day at the home of Mrs. Charles Smith in Cedar street. The afternoon was devoted to sewing and contest. Mrs. William Shamp and Mrs. Arthur Connell received the contest favors. Mrs. Clev. Travis favored the ladies with a beautiful solo. At the close of the afternoon a dainty two course luncheon was served by the hostess. Mrs. Hummel of Bellaire, and Miss Marguerite Dunn of Columbus were guests of the club.

The club will be entertained September 8 at the home of Mrs. William Davidson, 57 Hoover street.

Mrs. Emma Hiles entertained the C. G. R. club, Friday evening at her home in Rice street. Music was enjoyed, following which a three course lunch was served. Those present were: Mrs. P. Jenkins, Miss Goldie Hiles, Mrs. J. A. Thompson and daughter Ruth, Miss Bernice Thompson, Mr. Billy Thompson, Mr. Clarence Falley, Mr. Walter Falley, Mr. Wilbur Hiles and Mr. Louis Jenkins.

Mrs. D. H. Miller will entertain a company of girls on Monday at her home in North Fourth street in honor of Miss Helen Lake, a September bride. The affair will be a linen shower.

A number of young folks gave an informal dancing party last evening in the Moser Hall, complimenting Miss Gladys Young of Detroit, Mich., who is the guest of Miss Grace Jones of Seventh street. Punch was served during the dancing hours. Fields orchestra furnished a most delightful dance program for the following: Misses Margaret Moore, Willa McCort, Anna Smith, Beulah Ruland, Dorothy Kuster, Mary Ellen Avery, Mary Simpson, Grace Jones, Louise Smith, and Nell Flory, Eva Wilson and Grace Ackley of Granville, and Gladys Young of Detroit, Mich.; Messrs. Gene Collins, Gaylord Mercer, Harry Douce, Power Lucas, Harvey Trittipo, Dewitt Hansberger, Raleigh Botts, Ralph Edwards, Elmer Shimmel, Ralph Keller, Foster Weiant, Ralph Trittipo and Mr. Loverage.

Yesterday Miss Helen Lake of Hudson avenue entertained with a thimble party, and during the dinner hour announced her engagement to Mr. W. C. Coffman. The announcement was made when the napkins were taken a card upon which the names were engraved being found in that of Miss Nell Flory. Handsome American Beauty roses were used in protusion throughout the rooms, and centered the table.

Miss Lake's guests were: Misses Gladys Ayres, Annabel Conrad, Ruth Jones, Freda Wagenheim, Isabel Summers, Nellie Smith, Hazel Southard, Ethel Haynes, Ruth Felumlee, Pauline Phalen, Nell Flory, Nellie Fleming, Esther Graf, Louise Kuster, Ruth Lindorf, Mesdames Clyde Irwin, John Wickham, Winifred Jones, Stanford Smith and Miss Carr of Zanesville.

Miss Lake is the daughter of Mr. and Mrs. C. G. Lake of 192 Hudson avenue and her marriage will take place during the month of September. Mr. Coffman is a clerk in the offices of the superintendent of the B. and O. railroad here.

STILLWAGON-STACK.

The wedding of Mr. Elton Stillwagon and Miss Mary Stack was solemnized at 8:00 o'clock Friday evening at the home of Rev. G. B. Schmitt, pastor of St. Paul's Lutheran church in North Fifth street. They were attended by Mr. and Mrs. Fred Stack, Mr. and Mrs. Stillwagon will make their home in West Main street.

Woman Suffrage

The Allen County Political Equality league has received from the Ohio Woman Suffrage Association a beautiful diamond ring as the winner in a contest based upon contributions to the state treasury from June 1 to August 13. Allen county sent in the most money in proportion to population and received the ring which was given to the state association by an unknown donor.

Six hundred and eighty new suffragists were added to the rolls in Logan county last week.

Suffrage and suffragists will be much in evidence at the State Fair in Columbus this week. Thursday will be Woman's Day and there will be a parade about the grounds, followed by speeches.

Columbus will have two women candidates for the board of education this fall, Mrs. H. W. Kellogg, who is up for re-election and Mrs. Samuel Carroll Derby. Both have been nominated by petition.

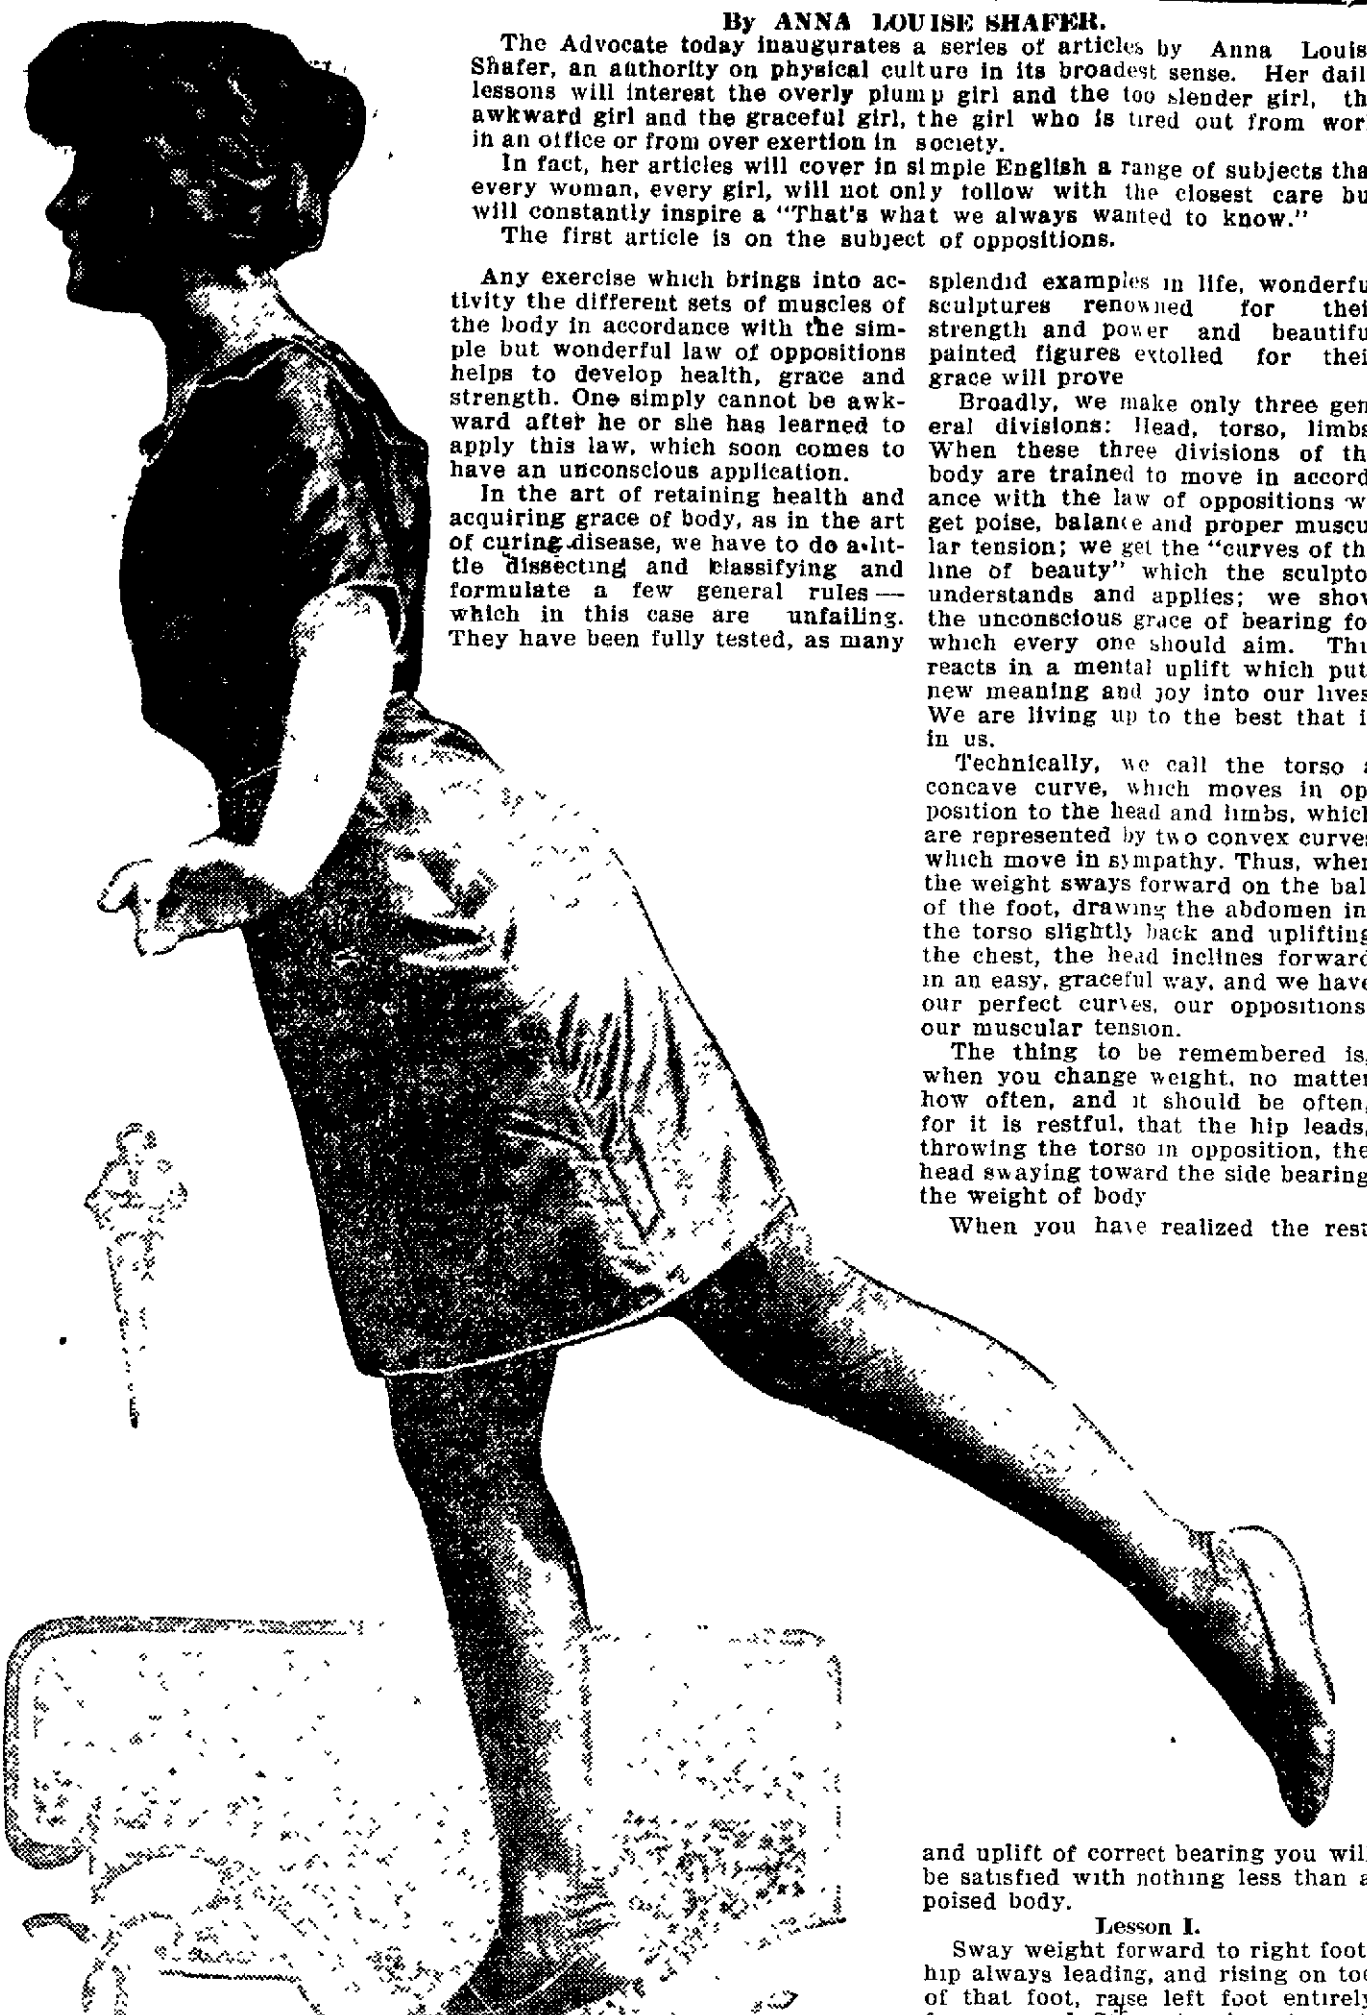

Mrs. Myron B. Vorce will spend part of the fall campaign in Pennsylvania.

TEMPERANCE UNION FIGHTS FOR SPACE AT THE OHIO FAIR

(ASSOCIATED PRESS TELEGRAM) Columbus, August 28.—The protest of the Ohio Temperance Union against the action of the state board of agriculture in refusing to allow the Temperance Union the use of a booth during the state fair was being heard today.

The exclusion of the Temperance Union was taken at the instance of the Anti-Saloon league and other organizations which alleged that the title of the Temperance Union was misleading and that it was secretly in alliance with the "wets." Harry R. Probasco, of Cincinnati, led the fight before the board of agriculture for a modification of the order of the board that would permit the Temperance Union to maintain a booth for carrying on its propaganda.

James W. Fleming, managing director of the fair offered as a compromise that representatives of the Temperance Union be allowed to enter the grounds, and to circulate their literature at will, but not to maintain headquarters labeled under the name it claims. This was rejected by the temperance union forces and the discussion therefore went over to this afternoon.

BISHOP IS BETTER; PRIEST ARRAIGNED ON ASSAULT CHARGE

(ASSOCIATED PRESS TELEGRAM) Winona, Minn., Aug. 28.—Bishop Patrick R. Heffernan, who was shot through the right lung yesterday by the priest, Father Lesches, was resting easily today. His physician reported the bishop's condition as satisfactory.

Father Lesches was arraigned today in municipal court, charged with assault. Formal hearing was set for September 4. The priest stood staring at the floor all through his arraignment. He told the sheriff he had no money with which to retain an attorney.

By ANNA LOUISE SHAFER.

The Advocate today inaugurates a series of articles by Anna Louise Shafer, an authority on physical culture in its broadest sense. Her daily lessons will interest the overly plump girl and the too slender girl, the awkward girl and the graceful girl, the girl who is tired out from work in an office or from over exertion in society.

In fact, her articles will cover in simple English a range of subjects that every woman, every girl, will not only follow with the closest care but will constantly inspire a "That's what we always wanted to know."

The first article is on the subject of oppositions.

Any exercise which brings into activity the different sets of muscles of the body in accordance with the simple but wonderful law of oppositions helps to develop health, grace and strength. One simply cannot be awkward after he or she has learned to apply this law, which soon comes to have an unconscious application.

In the art of retaining health and acquiring grace of body, as in the art of curing disease, we have to do with the dissecting and classifying, and formulate a few general rules— which in this case are unailing. They have been fully tested, as many

splendid examples in life, wonderful sculptures renowned for their strength and power and beautiful painted figures extolled for their grace will prove.

Broadly, we make only three general divisions: head, torso, limbs. When these three divisions of the body are trained to move in accordance with the law of oppositions we get poise, balance and proper muscular tension; we get the "curves of the line of beauty" which the sculptor understands and applies; we show the unconscious grace of which every one should aim. This reacts in a mental uplift which puts new meaning and joy into our lives. We are living up to the best that is in us.

Technically, we call the torso a concave curve, which moves in opposition to the head and limbs, which are represented by two convex curves which move in sympathy. Thus, when the weight sways forward on the ball of the foot, drawing the abdomen in, the torso slightly back and uplifting the chest, the head inclines forward in an easy, graceful way, and we have our perfect curves, our oppositions, our muscular tension.

The thing to be remembered is, when you change weight, no matter how often, and it should be often, for it is restful, that the hip leads, throwing the torso in opposition, the head swaying toward the side bearing the weight of body.

When you have realized the rest

and uplift of correct bearing you will be satisfied with nothing less than a poised body.

Lesson I.

Sway weight forward to right foot, hip always leading, and rising on toe of that foot, raise left foot entirely from ground. Sifting tension at waist, torso carried well up from hips; head inclined toward strong foot. This poise is so perfect that the position is easily held, and gives a sensation of flying. The muscular tension is complete. Change weight and repeat with left foot.

OFFICIALS HERE FROM THE OFFICE OF FIRE MARSHAL

Emerson L. Taylor of Columbus, a well-known attorney at law, was in the city today accompanied by Lawrence East, assistant state fire marshal and official wrecker for the department, looking up a number of old cases which they expect to prosecute for not complying with the orders of the state fire marshal. The gentlemen were accompanied by Assistant Fire Marshal John Baird of this city, who has lately returned from an inspection tour of a number of cities in northeastern Ohio, being highly complimented in a number of places by the local fire chiefs for the efficient work which he performed, and which greatly facilitated the work of the fire departments.

THE SICK

Mrs. Earl Claggett is seriously ill with peritonitis at her home in Sharon Valley.

Granville

(Special to The Advocate)

Granville, O., Aug. 29.—The King's Daughters gave their annual treat at the Infirmary yesterday afternoon and every one thoroughly enjoyed the program given on the lawn, which consisted of readings, music and stories. A feature of the proceedings was the performance of the colored inmate claiming to be over one hundred years old, who sang "When the Roll is Called Up Yonder," to the edification of the guests. At the conclusion of the program a treat of ice cream was served to the people of the Infirmary. About twenty of the local circle of The King's Daughters attended the meeting, among them two members of the committee, Mrs. J. E. Megaw and Mrs. Louis Flory.

Yesterday proved an ideal day for the annual picnic of the Methodist Sunday school, which was held in historic old Spring Valley with a large number of both young and old in attendance. Starting at about 10 o'clock in the forenoon and returning in the middle of the afternoon, the best hours of the day were utilized in all sorts of outdoor games and amusements. At noon a most appetizing basket dinner was enjoyed with the keen appetites usual on such occasions, and all returned in fine spirits from the last official picnic of the summer.

A charming luncheon was given yesterday afternoon by Misses Marie and Lucille Tilbe in honor of their houseguest, Miss Lilly Waller of St. Louis, Mo., in the Sigma Delta Chi chapter house in Park Drive. Covers were laid for twelve, those present being, Mrs. Raymond Pence, Mrs. Lee Moore, Miss Waller of St. Louis, Misses Josephine Hilliard and Mary Brumback of Newark, Miss Alma Cunningham of Cleveland, Miss Blanche Putnam, Miss Laura Cook, Miss Fern Ashbrook, and the two hostesses.

Pulpits in the Granville churches will be filled tomorrow by the following: Dr. C. L. Williams will preach in the Presbyterian church at 10 o'clock; Rev. A. J. Hawk, pastor, in the Methodist church on the topic "Does the Bible Stand Its Tests?" In St. Luke's Episcopal church, Thirteenth Sunday after Trinity, both morning and evening services by the rector, Rev. David Barre. Morning topic, "At Sunset," evening, "To Him that Hath." In the Baptist church, morning sermon by Rev. B. F. Griffith, evening service conducted by Rev. Dwight Wylie of Iowa City, Iowa. This will be the closing union meeting of the summer, as the regular pastors will be back from their vacations by next Sunday.

Miss Annette Besuden, Miss Elsa Hirschberg (Lyon) and Miss Florence Beckel of Newark were among Granville visitors yesterday.

Prof. and Mrs. L. E. Smith of Gambier, who with their children have been occupying Miss Rugg's cottage in West Broadway, left this morning for Gallipolis, where Prof. Smith has accepted the position of principal of the High school.

Mr. Kenneth Ullman has returned to his home in Granville from a week's visit with relatives and friends in Loudenville, O.

Prof. and Mrs. Theodore Johnson, who have been at Wallon Lake, Mich., for a fortnight's sojourn, returned yesterday to their home in West Elm street.

Mrs. J. G. Ewart and daughter, Miss Elizabeth Ewart returned yesterday from a visit to Lake Chautauqua, N. Y.

In Milady's Boudoir

By Gwen Sears

The training of the voice is not only necessary to a peaceful mind and our very good manners, but it is necessary to health. As we learn to speak properly, according to the least drain on the vocal organs, we learn to breathe properly. One cannot learn to sing or to speak well without acquiring a certain understanding of the lungs and their manner of action. The lungs have been compared to the bellows of an organ. They are never completely emptied of air when breathing. In ordinary, unconscious breathing very little air is displaced. That is why a good old air bath, which stirs up the whole bellows, is a stimulant.

To clear the lungs thoroughly of stale, or residue air, one should take a deep breath through the nostrils, holding it a few seconds in the lungs and expelling through the mouth with an explosive whistle or puff. This stimulates the action of the blood. If the air is cold so much the better. You can actually feel the blood rushing through the lungs, like tiny electric currents, after you have given your bellows a housecleaning and airing.

Colds and coughs have a bad effect on the vocal organs, sometimes effects that are lasting, bringing harshness and hoarseness that are certainly out of harmony with the gentle attribute of woman. The vocal chords have permanently thickened, which is indeed an affliction. Impure air will have the irritation and inflammation it sets up. Smoke and dust passing through the narrow passage formed by the vocal organs, leave their injurious effect upon them, therefore give your voice plenty of fresh air if you would have it sweet and beauty compelling.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Ohio Cities Gas

Preferred Stock

7% NET RETURNS ON MONEY INVESTED AT PRESENT PRICE

Dividends \$5.25 per share per year. If bought at—

75	nets	7	%
80	nets	6 1/2	%
85 1/2	nets	6	%
Far	nets	5 1/2	%

The preferred stock is protected by 5 1/2 million dollars common stock paying 5% dividends and earning them twice over. The annual report, recently issued, shows net surplus earnings of \$880,000 to pay preferred dividends of \$380,000.

COMMON STOCK—AN OPPORTUNITY.

Ohio Cities Gas common can now be purchased around \$90 per share. Dividend rate at the present time is 5%, but it is pretty generally understood that the dividend will be increased to 6% in the forthcoming quarter.

The business of the Ohio Cities Gas Co. is primarily furnishing gas to some 65,000 consumers in the cities of Columbus and Springfield. Its earnings from strictly gas sources are sufficient to pay dividends at the present rate. In addition to its gas properties the Ohio Cities Gas Co. owns the Columbus Oil & Fuel Co., which comprises Ohio's largest oil leases in the State of Ohio, and The Columbus Petroleum Co., comprising about 50,000 acres of oil leases in the State of West Virginia.

UNEXPLORED WEALTH IN OIL.

The great find of the company in West Virginia last December has uncovered a new and vast pool of oil which is now producing as much oil as all of the company's Ohio wells combined. The West Virginia properties are located in the Cabin Creek district, Kanawha County, 25 miles from Charleston, on a branch of the C. & O. Railroad. Six wells have been brought in with no dry holes thus far, and four more are now drilling and will be brought in during the next two months.

This is the highest grade Pennsylvania crude oil, and grades so high, in fact, that the company is getting a premium over the established price for Pennsylvania crude; the price on which has been advanced \$200 per barrel. Further advances are altogether probable.

The oil production of the Ohio Cities Gas Co. is, at present, about 1,000 barrels per day. On account of the advance in oil prices the development work is now being pushed vigorously and the production of the company will undoubtedly be doubled within the next year. The advance of 20c per barrel is equivalent to 1 1/2 additional earnings on the common stock. There are six wells in both fields which are due to come in within the next 30 days, and new locations are being made and additional wells drilled as rapidly as possible.

COMMON STOCK—ADVANCING IN PRICE.

We do not pretend to forecast "how high" Ohio Cities Gas Common will go. We look forward to higher prices, commensurate with its intrinsic value and its increment from this time the oil properties in West Virginia develop. We ourselves confidently look for the stock to sell at \$150, and shall not be surprised if it goes to \$200 per share.

The situation in Ohio Cities Gas stock may be summarized as follows:

1. The stocks are listed on the Cincinnati and Columbus Stock Exchanges and can be purchased from any reputable broker in either city. At the present time these stocks are more active on the local Stock Exchanges than any others.

2. The dividend rate on the common stock will in all probability be increased from 5% to 6% in the forthcoming quarter.

3. As shown in the annual report of the company to its stockholders, the common stock earned in the past fiscal year its dividend practically two times over.

4. The oil output in the past few months has increased from 500 barrels to 1,000 barrels per day and will be further increased as additional wells are brought in. It is estimated that the company will have 2,000 barrels production within the ensuing year.

5. Ohio Cities Gas common at \$90 per share is a far better purchase than it was a year ago at \$75, for since that time the new wealth that has come to the company will result in doubling the net earnings.

6. The common stock is earning 10% and paying 5% dividends. It is good opinion that it will be earning 20% and paying 10% dividends within a reasonable time. It will pay an investor to investigate Ohio Cities Gas stocks.

The earnings of the several properties owned by the Ohio Cities Gas Company for the past fiscal year follow:

Net profits from operation	\$1,063,628.36
Taxes paid	80,700.55
Net earnings	\$982,928.01
Interest charges	\$99,210.42
Surplus earnings	\$880,957.39
Dividends paid (preferred and common)	630,123.75
Balance over dividends	\$250,833.84

BOX CAR

USED TO DEPORT EIGHT MEN FROM MARIETTA, GA., LAST NIGHT.

They Could Not Satisfactorily Explain Presence There—Threatening Letters Received Daily.

(Associated Press Telegram)
Marietta, Ga., August 28.—Eight men who did not give satisfactory explanations of their presence here were rounded up late last night, placed in a box car on a freight train and sent away. The car was guarded until the train left the town limits.

Since Leo M. Frank was lynched near here August 7, several persons whose business in the town was not known, have been invited to leave. Five men were ordered away yesterday and today could not be found.

These events are being received with interest by the community. The letters are being received from all parts of the country by Town and Cobb county officials and by persons who have given statements on the Frank case to newspapers outside the state. Some of the letters have been turned over to post-office inspector at Atlanta.

CHURCHES WITHDRAW FROM ASSOCIATION.

Martinsburg, Ohio, August 28.—At the meeting here of the Mt. Vernon Baptist Association, an organization of Baptist churches of Knox and Morrow counties, the congregation of the Fredericktown church, of which Rev. H. L. Chapin is pastor, withdrew from the association. The action was taken, it was announced, because the association voted to change the by-laws of the organization which would exclude Rev. Mr. Chapin. The latter will be remembered, featured in divorce proceedings in the Knox county courts when his wife admitted indiscreet relations with a member of the pastor's congregation nearly two years ago.

CORONER FREES OFFICER DONEY FROM ALL BLAME

Coshocton, Aug. 28.—Coroner F. M. Marshall yesterday exonerated Railroad Detective Charles Doney from all blame for shooting James Cavanaugh, aged 40, through the heart during a running pistol duel Thursday. The coroner's verdict was justifiable homicide.

Cavanaugh's companion, Albert Conley, aged 30, who was captured by Doney immediately after the gun fight, was taken to Massillon by Chief of Police Ed M. Erdle. The police are searching for the third man, known only as "Dutch."

Authorities here today asked the officials at the Columbus penitentiary for the record of Cavanaugh who, Conley said, had served time there. Conley also said Cavanaugh had served time in the prison at Joliet, Ill.

THE NEWARK ADVOCATE'S BUY-AT-HOME DEPARTMENT

A DUTY YOU OWE TO THE NEWARK MERCHANTS

Before Sending Money to Distant Concerns, Citizens Should Give Local Merchants an Opportunity To Compete With Foreign Prices.

HYPOCRISY IN BIG PACKAGES

Stole Livery of Heaven to Serve Devil In—Hypocrite is Everywhere—Man Loves Gold and Hates to Be Imposed Upon By Counterfeits—Goods Shipped In Plain Packages—Many Local Merchants Deficient In Knowledge of Advertising.

(Copyrighted, 1914, by Thomas J. Sullivan.)

The first hypocrite was the man who stole the livery of the court of heaven to serve the devil in.

Some people speak as if hypocrites were confined only to religion, but they are everywhere, people pretending to wealth when they have not a sixpence, assuming knowledge of which they are ignorant, shamming a culture they are far removed from, adopting opinions they do not hold and pretending honest business roles which are far from the legitimate.

As a man loves gold, in that proportion he hates to be imposed upon by counterfeits, and in proportion as a man has regard for that which is above price and better than gold he abhors that hypocrisy which is but its counterfeit.

Lying before the writer is the acme of hypocrisy. It is a catalogue of one of those mail order houses, and on one page three sewing machines are advertised. The first is declared to be the "most perfect sewing machine on the market," the second is said to have "more good sensible ideas than any other," while the third is praised as being "the most superior sewing machine on the market."

Now, which of these machines really is the best? Which of them is as good as the one your retailer sells and guarantees? Can any reader of the above triumvirate of ads. tell? Most assuredly not.

The lesson should be plain to all who receive these catalogues. They contain glowing descriptions of goods, but the senders of money do not know what they are going to get for their money when they send it to a mail order house.

Goods In Plain Packages.

Were it not so serious it would be amusing to read some of the smooth arguments the catalogue houses advance to their readers in an effort to induce them to send in orders. They say that goods are sent in plain packages because many merchants who buy of them to sell again object to having their name appear on the boxes. We know we are safe in saying there is not one single merchant in the whole United States who ever ordered any goods from these concerns. The statement is made in an effort to make the consumer believe that he can buy as cheaply as his local merchant can.

But printed matter that will sell goods is within the power of almost any local retailer. Most all the expert advice is little more than empty generalizing about nonessentials. It is not literature, remember, but advertising that you want to write. Knowledge of words and type and the ability to write fine introductory paragraphs and striking headings are not to be despised, of course, but the facts, not fancy ways of saying them, are what induce the people to spend their money in the local stores.

The merchant's knowledge of his store, his goods and the people is more than an offset for any lack of ability to coin catchy phrases or to use technical language in telling the printer how he would like to have his advertising look.

When the merchant sits down to write his ad. he should imagine that his hardest customer to sell to is seated on the other side of his desk. He should write what his talk would be if he were determined to make a sale to that customer when in the most obstinate of moods. He should write it all down, then lock it in his desk for a few hours, later cut out all the superfluous words and print the facts without any trimmings.

Personality Brings Trade.

The nearer the local merchant can come to making his advertising sound like his talk the more effective it will be. Personality is what brings and holds trade; personality secures to your competitor trade likewise difficult to wean away from him.

The modern retail merchant must make sure that his displays in his windows and in the store itself are such as will interest women. A general variety ought to be shown, with prices clearly indicated in plain figures. Make inspection easy and then let shoppers inspect undisturbed, for in this manner many new wants will be developed in the minds of the shoppers. The merchant or salesman who stands over a shopper and attempts to press a sale

invariably annoys the customer and hastens his or her departure.

The merchant who has not advanced with the times must come to a full realization at once that many changes are necessary before he can hope to compete resultfully with retail mail order houses, and the first and principal change is the manner in which his stock is displayed, and in the process of this arrangement he must take into consideration the fact that men have almost completely ceased to figure in the day to day purchases of household necessities.

Y. M. C. A. NOTES

After next week a new schedule of classes and hours will go into effect. This will be arranged to accommodate in the best possible way all classes of members. Now is the time to make definite plans for a place to spend leisure hours through the winter months. Some improvements make the building more pleasant than before.

Physical Director Wilson Galloway is expected to be back tonight and will at once make plans for the fall and winter gymnasium schedule. Calvin Hazlett, who has worked for the association very conscientiously for the past two years, spending Saturdays when school was in session and will leave September 1st to prepare for his school year. He will enter Washington and Jefferson College this fall. This is his father's Alma Mater.

Why Go to Church Tomorrow?

(BY FRANK L. JOHNSON)

SECRETARY Y. M. C. A.)

BECAUSE

The prosperity and good name of any community depend largely upon the success of her schools and churches. The business interests of a community are dependent upon the good will and "forward look" of its people. Thus the history of civilization has been inseparably connected with the history of the church. All charitable and philanthropic enterprises have had their beginning in hearts prepared for service by the application of the principles of Jesus as taught by the church. The church of today is the great "character building" power in organized society. Her court from the common meeting place of all classes. "Whoever will may come"; the invitation is to rich and poor, bond and free, learned and unlearned. The task of the church is to increase righteousness and to extend the kingdom of God. Friendship, sympathy, and love are the products of lives inspired by her teachings. No man is a good citizen who does not strive to increase the well being of his fellows. Go to church tomorrow and support the church, and so assist in the great forward movement for righteousness and good will.

The best wishes of the members will go with him.

A card from member Clifton Grimm shows that he is spending his vacation about Dayton. Suppose he is showing some of the Association's honor by doing swimming stunts in their pools.

Messrs. Logan, West, Mosteller and Pipes of Athens, O. students at Ohio University, are spending a few days in the building while in town distributing Jersey corn flakes. Some good rooms are now vacant which would make fine winter homes for young men. Shower bath, reading room, both phones and other privileges are included in social membership which costs but \$3 per year. This is the only extra fee required for dormitory occupants.

Prof. Fred Bird of Cedarville, Ohio, spent a part of the week in the building while here attending the Teachers' Institute. He becomes principal of the Pataskala high school this year. Prof. H. J. Dickerson of the local High school has returned to his old quarters, room 6.

Educational classes will be conducted this fall and winter for industrial men. Classes will be organized to meet the demands. Those wishing to join any particular class should make inquiry at the office. English and arithmetic for foreign speaking men and mechanical drawing classes are now being planned.

The reading room has magazines which contain many full articles on present world problems. The members should make use of these educational opportunities.

PREPARING FOR LARGE CROWDS

Both the Columbus Railway, Power & Light company and the Big Four railroad already are completing their plans for the carrying of visitors from Columbus to the state fair grounds. Both the electric lines and the steam roads are planning to use more cars this year than ever, owing to the general expectation of greater crowds. The street railroad, as usual, will run hundreds of extra cars to the fair grounds every day of the fair, while the Big Four company will continue to carry people direct from the Union Station at Columbus to the fair grounds.

There will be information bureaus for the benefit of visitors at the fair grounds, in the state house yard, in the fair grounds and at other places in Columbus. Columbus hotel keepers and boarding house proprietors are "sprucing up" for the occasion of the fair. Extra accommodations are being provided for. All the hotels are asking commercial travelers, wherever possible, to avoid Columbus during fair week, in order that all possible space may be given to the fair crowds.

CLIMALINE in the laundry gives you soft water and makes washing much easier. Try it.

Lodges

K. O. F.

Newark Lodge.

The members of Roland Lodge, No. 305, Knights of Pythias, bade farewell to their old castle hall last Tuesday evening with a monster gathering of the brethren. It was the largest turnout lodge meetings ever held in this city, over 200 knights being present. Much of the doings has been printed heretofore and will not be repeated here. Suffice to say that the true Pythian spirit was manifest throughout the evening, and all present seemed to enjoy the occasion as much as was possible under the circumstances of leaving an old home. Two new applications were received and the regular business transacted. Next Tuesday evening we will hold our first meeting in the new castle hall on East Main street, and another representative gathering is prophesied. All will want to see the new building under the glare of the electric light and also hear and see how the various committees are progressing. It will not be necessary for the writer to urge the faithful to be on hand.

Plans are going merrily along for the dedication of this handsome castle hall. Coshocton and Mt. Vernon lodges were visited this week by knights and nothing but good news has been brought back. The invitation committee urges every local knight to personally invite all their friends outside the city to be with us on September 22, the date of our dedication.

Newark Lodge, No. 13.

Regular meeting of Newark Lodge on Thursday evening was started in the old hall, and talk about enthusiasm, it surely did show up there. For there was not enough chairs in the hall to accommodate the crowd, and after a visit of Pythian Sisters, who were there in the interests of their order, it was decided to adjourn to the new quarters in the new Temple. So the boys gathered up their "Rags," "Bones" and "Old Iron" and sojournd to the new Temple, where a very interesting meeting was held. Every body seemed to enjoy the change and we believe the boys will feel more at home, and it is the desire of the two lodges that every member feel that he has an interest in the building, and that they will take more interest in the meetings.

After getting settled down to business in the new hall, the regular routine of business was taken care of in short order, and ten applications, the largest number that was ever received at one meeting, were received and referred to proper committees. Five applications were voted upon and elected to membership. It has been decided to defer putting on the Knight Rank until about the first of October, then to have a class of about twenty-five or thirty to take the Rank and have a "Blowout" or in other words, something to eat.

The relief committee reports that the sick members are getting along very satisfactorily, and that several of them are able to resume their respective duties and were declared out of the care of the Lodge.

There will be degree work every meeting from now on to the date of the dedication of the new Temple. September 22, and the officers would like to see the new lodge room full at every meeting. Brothers come out and assist in putting this large class through the work.

PRESS COMMITTEE.

LIICKING COUNCIL NO. 90, JUNIOR O. U. A. M.

Meeting regular form Friday night, and there were two candidates found in waiting, and they were instructed into the lessons of Virtue, Liberty and Patriotism, after which there was a social good time, enjoyed by all present. All members of No. 90, as well as all members of sister councils, are urged to attend our next meeting, Friday night, September 3, as we have degree work, and the representatives to the state meeting will make their report of the meeting held at Tiffin, Ohio, the 23, 24 and 25 of August, at which they dedicated a new \$40,000 school house at the Jr. O. U. A. M. Orphan's Home. Now let every member be present Friday, September 3, at 7:30 p. m.

Patriarchs, every thing is going along nicely for the big Patriarchal degree. We now have twelve candidates and more applications for the next meeting, which is Thursday evening, September 2. Any applications received at this meeting will be in time for the class September 16. You must be on hand next Thursday night, as we will practice the degree night, as we will practice the degree work and make final arrangements for the big meeting. Let every body boost and see what can be accomplished.

Newark Lodge No. 623.

The next regular meeting of Newark Lodge, which is Monday, August 30, should be well attended, as there will be something of interest to every member. We are arranging for a "Home-Coming" which will take place on the last meeting night of September. Every member should make a special effort to get a candidate by that time. The Home-Coming committee will expect the petitions to be turned in that evening, September 27. Be on hand next Monday to get in line for the coming events.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."

"But to get liver and bowels working as they should, without producing evil after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, the root of which has been called 'vegetable calomel' because of its effectiveness—though of course it is not to be classed with the real calomel of medicinal origin. There is no habit-forming constituent in 'Santalene' tablets—that's the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Santalene tablets, which may be procured from any druggist—a dime's worth will prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unshightly eruptions, pimples, blemishes, blotches, sallowness of complexion are due to a sluggish liver, a constipated bowels—and a polluted blood stream as a consequence. It is a revelation to those who resort to outward applications, which can never have natural, permanent results. If more people knew that there is a very simple remedy, to be found in any drug store, which is as effective as it is harmless and quick acting, it is an enormous loss to the medical profession, which has been put in tablet form, and at such small cost no one need be deprived of its wonderful benefits.

"Santalene tablets"—that's the name—of the simple vegetable, and there's no habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime, and you will find nothing in the morning is so easy, so soothing, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Santalene tablets are not only the most remedy known for constipation and torpid liver, but offer the safest, most sensible treatment for complexion difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "Santalene" as a vegetable substitute for calomel, has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Santalene tablets, aside from their efficacy, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "toothache habit." Also, instead of injuring the membranous lining of the organs involved, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall. And they work so easily and gently, that they are of course preferred on this account to the violently acting purgatives. Their inexpensiveness is another reason for the popularity of Santalene tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the label remedy for constipation, torpid liver, and their many evil consequences, has finally been found.—Druggists Review.

The Overthrow of Satan's Empire

Will be the subject of Free Bible Lecture to be delivered in

High School Auditorium Next Sunday
August, 29th at 3 p. m.

—BY—

Pastor C. B. Shull of Columbus, Ohio

Pastor Shull is undoubtedly one of the best posted students of the Bible in the state of Ohio. He has been lecturing for years and is in great demand. His discourse will be a further description of what was discussed last Sunday evening by Pastor Russell at the Auditorium theatre. Pastor Shull, like Pastor Russell, appeals to the reason of his hearers and gives a thus saith the Scriptures for every point he makes.

Township Trustees.
At the meeting of the Newark
Township School Board Friday night
the former action of the board look-
ing to the discontinuance of the
school in the Hartshorn sub-district
was rescinded, and Miss Nora Nor-
pell was elected teacher in that dis-
trict for the coming year. The
board also voted to open the town-
ship schools on Monday, September
13th.
Moving Office.
The insurance offices of George
Grindle are being moved today from
over the Besanceney furniture store

In East Park Place to rooms in the
Hibbert and Schaus block. Mr.
Grindle occupied his old quarters for
the past fifteen years and vacated
them on account of improvements
which the Besanceney Bros. are mak-
ing to their store room, which in-
cludes large display windows on the
second floor above their room and
that of the Mitchell and Miracle
clothing store.

Peaches Plentiful.

The market was overstocked with
peaches of many varieties today and
they retailed from \$1.50 to \$2.00
per basket. One dealer stated that
he had disposed of 50 bushels be-
fore 10 o'clock this morning. There
was an abundance of vegetables of
all kinds as well as excellent cantal-
oupes and watermelons. Dealers in
the market house stated that today
has been one of the best for trade
which they have had for some time.

Young Woman Broke Arm.

Miss Catherine Applegate, the 17
year old daughter of J. W. Applegate
of Broad street, while getting off of
the Granville street jitney bus caught
her dress and fell, breaking her right
arm at the elbow. Drs. Postle and
Evans attended the arm this morning
and set the fracture. Miss Apple-
gate is resting easily this afternoon.

Held for Prowling.

A quartette of Zanesville youths,
who made a journey to Newark Fri-
day night to see the sights of the
city, lingered too long and were picked
up on the streets by police officers
who could not get a satisfactory ex-
planation from the young men. They
were charged with prowling. They
drew suspended sentences in police
court and were allowed to return to
their homes.

Odd Ear of Corn.

Mr. J. T. Holmes, of Walnut
Grove farm, R. F. D. No. 2, Newark,
brought to the Advocate office Satur-
day a freak ear of corn. The corn
resembles, in form, a human hand.

Likes Old Home News.
Mrs. Mary J. Hancock, 524 Oak
street, Kansas City Missouri, has
just sent remittance to the Advocate
for her thirty-fifth annual subscrip-
tion, and in a letter accompanying
the check, says, "I like my old home
news."

Child almost Choked.

The two year old son of Mrs.
Ray Hoyt of 394 West Main street
swallowed two pennies yesterday and
almost choked to death. The mother
brought the child into H. A. Shoe-
maker's grocery immediately and by
pounding the boy violently on the
back the pennies were forced up.
For a while the mother was worried
but after the money was dislodged
from the boy's throat he quickly re-
covered and it was not necessary to
call a doctor.

Improvements at Levitt's.

A handsome new front has been
added to the Levitt Shop for Women,
at 17 West Church street. This will
give two nice display windows for
showing the beautiful goods at this
store. A number of other changes
are being made, making room for
the new fall goods coming in every
day.

Mr. Speer Improving.

Fred G. Speer of Hudson avenue,
who has been seriously ill for several
days, was considerably improved to-
day, according to his physician.

Wright-Wyeth Reunion

The Wright-Wyeth reunion will be
held at the residence of E. M. Wright
near Fredonia, on Tuesday, August
31. All connections of the family
are requested to be there.

Back from Trip.

Sheriff Charles H. Swank has re-
turned from a ten days business trip
to Nashville and Hollow Rock, Ten-
nessee, where he was engaged in
looking up records in the settlement
of his father's estate. Sheriff Swank
drove his new six-cylinder car to
Cincinnati and went from there by
train to Nashville. He then went
95 miles south over the hills, making
a part of the journey by stage coach,
and was in the "moonshine" district
for several days. He states that the
southern people were hospitable and
made his visit a pleasant one. The
sheriff went from Nashville direct to
Chicago before returning to Cinci-
nati for his touring car.

A VENERABLE GANDER.

What is the maximum when
it comes to the age of a goose?
This may sound like a ridiculous
question, but it has a touch of
the scientific after all. It is go-
ing to be one of the multitari-
ous live queries which the state
fair will try to answer. For at
the fair there is going to be on
exhibition a gander that is
known to be 42 years old. And
he is going to be very much
alive if his present state of
health continues. This gander,
with a sister goose, was bought
at the Ohio State Fair, just 42
years ago, by a Madison county
farmer. The goose died of old
age two years ago; but the gan-
der shows only a few of the ac-
companiments of longevity. At
the request of his owner, he
was placed recently in the state
fish hatchery at London, where
he is an interesting and wel-
come guest.

AUSTRIA AGAIN
IN HOSTILITIES

[ASSOCIATED PRESS TELEGRAM]
Paris, Aug. 28.—Resumption of hos-
tilities between the Austrians and
Montenegrins is announced in an of-
ficial statement given out here today by
the Montenegrin consul general. The
statement, filed in Belgrade, on Aug.
26, and delayed in transmission, is as
follows:

"A lively engagement occurred yes-
terday near the mouth of the Gulf of
Cattaro (in Dalmatia, near the Mon-
tenegrin border) between our posts
and rather strong detachments of Aus-
trians. The fight lasted two hours.
The Austrians retired, leaving numer-
ous dead on the field. Ten prisoners
remained in our hands. King Nicho-
las has gone to the front."

Owing to the annual meeting of the
Churches of Christ of Licking county,
at Moundbuilders' Park, Sunday, Aug.
29, there will be no preaching ser-
vices at 1. O. O. F. hall. However,
Bible school will be held at the usual
hour, and those wishing to attend the
meeting at the close can take an elec-
tric car and enjoy a good basket din-
ner and a fine program. Everybody
invited to attend.

Mr. and Mrs. Geo. Stinson and
daughter Thelma motored to Ulica
Wednesday, enroute to Almira, New
York. They stopped with Mr. Stin-
son's brother, over night, and Thurs-
day morning accompanied by their
nephew, Mr. Stinson, wife and daugh-
ter of Ulica, they started on their
tour, expecting to enjoy about two
weeks of sightseeing in the city.
Word just received here, stated that
they had traveled 190 miles the first
day and were having a fine time.

After a pleasant two weeks' visit
with her daughter, Mrs. Nora Hessler
at Columbus, Mrs. Jane Wells re-
turned home Sunday accompanied by
her grandson, Donald Hessler.

Mrs. T. L. Belt last week.

Mayor White and wife, D. P.
Burch and wife, Mrs. Lane Davis and
Mrs. F. M. Hand were called to
Kirkersville, Thursday on account of
the death of their brother-in-law, Mr.
James Pugh.

Mr. and Mrs. Myers of Talmadge,
Ohio, are visiting at the home of
their daughter, Mr. and Mrs. Henry
Lorentz.

Mrs. L. W. Rease has been enter-
taining the Misses Georgia Bodie,
Helen Smith and Bernice Hoyt of
Hanover, several days this week.

Mr. and Mrs. Fred George and
daughter Catherine and Mrs. Ida
Sawyer, have returned home from a
pleasant visit with Mr. and Mrs. Wm.
Smith at Bowling Green.

Owing to the inclement weather
the M. E. Sunday school picnic has
been postponed indefinitely.

The Priscilla club will meet with
Mrs. Rosa Reeb, Wednesday, Sep-
tember 8.

If the weather is favorable the
Church of Christ, Bible school, will
picnic at "Rees," woods one-half
mile west of town, Wednesday, Sep-
tember 1st. Everybody invited.

After 16 years of service as pastor
of Old School Baptist church, Elder
Dool has resigned to take effect Sep-
tember 1st.

Our schools will open September
7 with the following corps of teach-
ers: Superintendent, C. F. Osborn;
principal, Mr. Harsbarger and the
Misses Hutzell, Palmer, Brown,
Weber, Geiger and Forsythe.

The I. O. O. F. lodge, regular
meeting on Thursday night has been
changed to Saturday night.

An alarm of the fire bell and a
blaze at I. O. O. F. hall, Wednesday
at 9 p. m. caused quite an excite-
ment. However, the prompt work of
the bucket brigade and fire exting-
uisher, soon had the blaze under
control. The fire was caused from
an electric wire coming in contact
with a gas pipe, burning through the
pipe and setting the gas on fire. The
damage was slight.

Mr. Converse Smith who lives at
Highland hall met with quite a seri-
ous accident Wednesday while driv-
ing home. His horse frightened at
an electric car, and jumped in front
of a car on the track, the car striking
the horse and breaking its neck.
Death resulting. The occupants of
the buggy Mr. Smith, Mrs. Anna
Davis and a small child, were all
thrown out, but escaped injury.

Miss Bernice Hoyt of Hanover and
Master Geo. Palmer of Bucyrus, were
guests of Mr. and Mrs. Amos Atwood
this week.

Prof. and Mrs. Karl Eschman of
Granville, Miss Florence Palmer of
Louisville, Ky., and Miss Lillian Pal-
mer of Pataskala, were house guests
during the past week of their aunt,
Mrs. Myrtle McGlade at "Sunny-
side."

B. T. Burch and wife entertained
friends from Wyoming several days
this week.

WHEN GOING AWAY.

Advocate readers can have
the paper while away on vaca-
tion trips by merely communi-
cating with the circulation de-
partment. Addresses may be
changed as desired. Both old
and new addresses should be
given when notifying the circu-
lation department by telephone
or letter. Have the Advocate
follow you this summer. Be-
fore leaving telephone this of-
fice. Should you forget it,
drop us a postcard when reach-
ing your destination.

Hamburg's Unique Ferry.

Hamburg possesses a steam ferry of
a somewhat original type, for the main
deck can be raised and lowered by suit-
able machinery in order to take up a
difference of level of some sixteen feet.
The large structural framework rises to
a considerable height and is intended
to guide the whole platform in its ver-
tical movements. By the use of pow-
erful electric winches it is possible
to raise and lower the deck as a whole,
even when it is loaded with numerous
heavy vehicles, such as are used in
landing material at the port. The rea-
son for adopting this arrangement of
the deck lies in the fact that at the
Hamburg port the difference in tide
level is considerable, so that when the
boat lands at the wharf it is by no
means on the same level at all times
and in the ordinary case the heavy
vehicles would be obliged to mount or
descend a steep incline. It is in order
to avoid this drawback that the pres-
ent type of ferry was constructed, and
as the movable deck can always be
brought flush with the level of the
dock, the vehicles can now run off in
the ordinary way.

Lawyers and Liars.

The eminent cross examiners of New
York city have their favorite methods
of knowing when a witness is telling
the truth or lying. One lawyer says
he can tell when a witness is lying by
the movement of the lips. Another
declares the hands form the best bar-
ometer, and another declares the
twitching of the muscles of the cheeks
is a sure sign that the witness has
been trapped in a lie. Still another
disciple of Blackstone says that facial
expression always helps him, as well
as watching the feet, which are usual-
ly shifted uneasily when the lie is ap-
parent. Then another declares that
by keeping constant vigilance on the
eyes of the witness he knows when he
has his man "going." If taken as com-
plete formula it would mean that a
perjurer to escape detection would
have to school his face to be impassive,
keep his hands in his pockets, hook
his feet in the rounds of the witness
chair and shut his eyes.—Pittsburgh
Dispatch.

Still They Wonder Why.
The two women were discussing that
never failing theme—the incompetency
of domestic servants. And the bit of
the conversation we overheard gave
us a line on a possible reason for many
a disappointment in that line.

"Well, I am looking for a new cook,"
said one of the women, "and I am at
my wits' end. They come to you as
experts, well recommended and all
that, and they turn out to be lazy and
incompetent. I declare I can't under-
stand it!"

"What became of the cook you had
last week?" asked the other.

"My dear, she was positively the
limit. She couldn't cook, she broke
dishes, she wasted food, she wasn't
neat, and she was impudent. I have
reason to believe that she drank. Oh,
I had to get rid of her. Honestly, she
was so bad in every way that I could
hardly think of a thing to say when
I wrote a recommendation for her."—

Shirking the Responsibility.
"Now, this is the way I like to be
treated in a hotel," said the breezy
drummer as he sat down to break-
fast in the Pikesville House. "The
morning paper is lying beside my
plate."

"I beg your pardon, boss," said the
head waiter in considerable agitation.
"You're in Judge Hornbuckle's seat.
He's been settin' there for twenty
years an'-an'-he's due here at any
minute."

"I should worry," was the drum-
mer's only reply.

"Well, maybe you kin take keer of
yourself, boss. I guess you ain't never
been befo' de judge like I has. Dat's
why I's gwine out an' stay in de
kitchen till de rucus blows over."—
Birmingham Age-Herald.

Could Not.

"Now, what does your young Mr.
Brown make by lectures and readings
you talk so much about?"
"Nothing, papa. 'Virtue is its own
exceeding great reward.' It shows how
good he is."

"Tut, tut, child! How can you expect
my consent to your engagement with a
man who, as you say yourself, is abso-
lutely 'good-for-nothing'?"—Phila-
delphia Record.

Probably.

that a well known scientist predicts
that man will reach a condition where
he will be toothless and hairless and
walk on all fours. Jack Swift—And
will woman continue to pursue what is
left of him with the same avidity as of
yore?—Boston Journal.

A Church Canon.

The word "canon" is Greek for
"rule" and is itself derived from
"canna," a reed, which was selected
by carpenters on account of its
straightness. Hence from a measuring
rule it became a figurative rule for
measuring and regulating church doc-
trines.

Balm For Little Women.

sided on Mars she would weigh only

This Is Rather Thin.

"Say, old chap, tell me, what is sheer
nonsense?"
"Why, don't you know? It's the kind
you can see through easily."—Cornell
Widow.
